

Proposed Structure for Prevention and Early Intervention (PEI) Plan

Sub-Committee Meeting
June 4, 2012

Orange County Health Care Agency
Behavioral Health Services
Prevention & Intervention Division

Background Information

- The PEI plan was approved in April 2009
- No significant programmatic changes to the plan have been made
- In need of a current and revised plan

Reasons for Proposing a Plan Revision

- Overlap or duplications of programs/services
- There is inconsistency in the grouping of the 8 projects:
 - ◇ Some are based on target population
 - ◇ Some are structured on the type of PEI programs
 - ◇ Some are based on location of services
- Lack of community response/interest
- Limitation with using brand names

Proposed Solutions and Goals

- Simplify the current PEI plan
- Streamline the projects and programs
- Maintain the integrity of the original plan

Evaluation Process

- In an effort to address the program overlap with the current PEI plan, a careful evaluation process took place

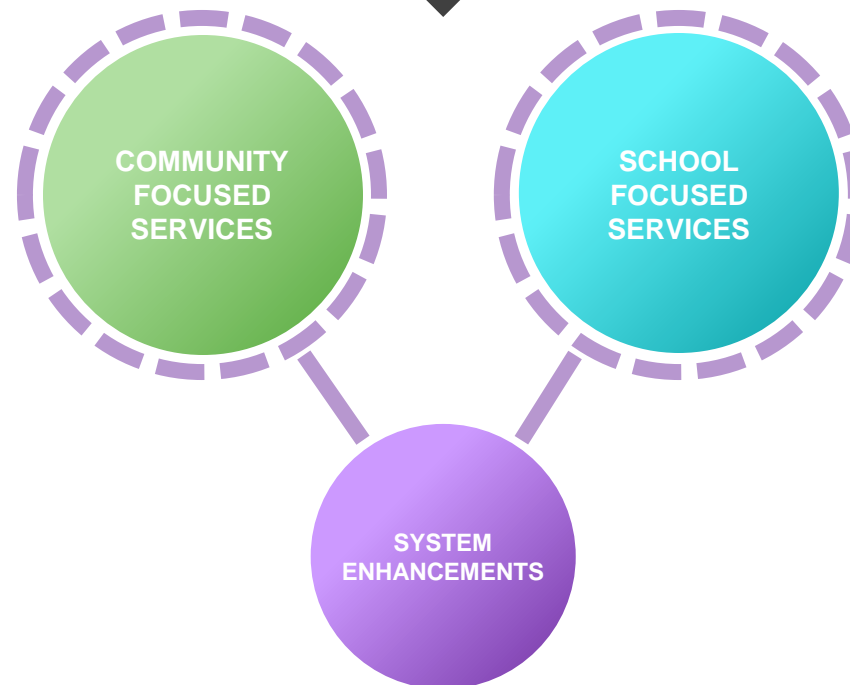

Rationale for Proposed Changes

- Merging similar services into fewer, more focused projects and programs allows for:
 - ✓ Consolidation of resources/overlapping services
 - ✓ Broader scope of service
 - ✓ Improved program efficiency and coordination of services
 - ✓ Application of lessons learned
 - ✓ Reassessing the training needs of the community

Original 8 PEI Projects and 33 Programs

Early Intervention (EI)	School-based Services	Outreach and Engagement	Parent Education & Support	Prevention Services	Screening and Assessment	Crisis and Referral	Training Services
EI Services for Stressed Families	School-based MH services	Information and Referral	Positive Parenting Program	Mental Health Consultants	Providing Assessment Tools and Training	Crisis Prevention Hotline/Warm Lines	Training and Technical Assistance
First Onset Services and Supports	Positive Behavioral Interventions & Supports	Outreach and Engagement	Parent Empowerment Program	Children of Parents with S/U or Mental Illness	Integration of Professional Assessor into Established Programs	Crisis Intervention Network	Child Development Training
