2020-2024 CONSOLIDATED PLAN REFERENCE DOCUMENTS

Introduction:

What are some factors that contribute to homelessness in your city?

- The 2019 unsheltered PIT survey incorporated a question aimed at capturing data for individuals and families who were experienced their first episode of homelessness in the last 12 months.
  - Individuals -
  - Families -
- First Time homelessness data is valuable in identifying specific risk factors that lead to homelessness such as loss of income, history of residential instability, change in household status, interactions with the community corrections or emergency medical services.
- Housing Market – limited affordability and availability

Provide some background demographic information on the homeless population in your city. Information can come from most recent Point-In-Time Count and/or report or studies done specifically in your city.

METHODOLOGY

The U.S. Department of Housing and Urban Development (HUD) requires that all Continuum of Care jurisdictions across the nation complete a biennial unsheltered count and an annual sheltered count of all individuals experiencing homelessness in the community on a single point in time during the last ten days of January.

Orange County's 2019 Sheltered Point In Time Count took place the night of Tuesday, January 22, 2019. Emergency Shelters and Transitional Housing Programs collected client-level demographic information from individuals and families staying the night in each program. The 2019 Unsheltered Count process took place over two days, Wednesday, January 23 and Thursday, January 24, to ensure the 800 square mile County jurisdiction was canvassed effectively. The change in methodology allowed the count teams to collect unique ID data points that were used to deduplicate records for the two day street count process. The survey data was collected with ArcGIS Survey 123, a phone application that captures GIS locations and provides vital information that guides the way the County responds to homelessness in Orange County. The results for the 2019 Everyone Counts process provide the most accurate data on the scope of homelessness in the County. Because of this improved process, methodology and data quality from the use of GIS technology, Orange County's 2019 Point In Time Count results ensure that Everyone Counts.

FAMILY SOLUTIONS COLLABORATIVE

Families and Communities Together
(FaCT)

Program Overview

Launched in 1994, Families and Communities Together (FaCT) is a network of 15 Family Resource Centers (FRCs) located throughout Orange County's highest-risk communities providing essential family support services, education, and resources. FaCT is administered by the County of Orange Social Services Agency, in partnership with the FaCT Coalition of Charitable Ventures of Orange County, The Olin Group, and the Orange County Alliance for Children and Families. The FaCT Coalition facilitates the planning, implementation, evaluation, and support of services and activities that maximize the benefits offered by the FRCs. Programs and services receive funding from federal, state, and county agencies including U.S. Department of Health and Human Services-Promoting Safe and Stable Families, Office of Child Abuse Prevention, California Emergency Management Agency, the County of Orange, as well as volunteer, in-kind support, and private donations.

What is a FaCT Family Resource Center?

Each FRC is a family-friendly, community-based site that provides access to comprehensive prevention and treatment-oriented social, educational, and health services for all families, including birth, blended, kinship, adoptive, and foster families. FRCs serve as vehicles for engaging local residents and community organizations in the identification and resolution of community concerns related to raising healthy children. Every FRC is unique to its community; services are offered by multicultural and multilingual staff that reflect the surrounding neighborhoods and the families they serve.

Our Vision

Is that all our children grow up in stable, nurturing families and safe, supportive communities which promote healthy development and provide opportunities for children, youth, and adults to achieve their full potential as caring, responsible, and productive members of society.
