

GUIDE TO CALIFORNIA BEHAVIORAL HEALTH INFORMATION AND REFERRAL LINES

DEVELOPED BY ORANGE COUNTY HEALTH CARE AGENCY
BEHAVIORAL HEALTH SERVICES

MARCH 2015

INTRODUCTION

The Orange County Health Care Agency launched its Behavioral Health Services Navigation Department in October 2013 to improve access for its residents seeking behavioral health services. These services include County-operated and County-contracted behavioral health programs: children and adult mental health, alcohol and drug inpatient and outpatient, crisis, and prevention/early intervention. A key part of the Navigation Department is the OC Links Information and Referral Line that has assisted thousands of callers from across the County in its first year of operation. OC Links helps callers navigate Orange County's behavioral health system and links people and their family members directly to the program that best meets their needs.

OC Links has received calls from all over Southern California. Based on the community response, this guide was created to assist all residents throughout the state in finding behavioral health services available in their communities. Every attempt has been made to provide the most accurate and up-to-date information at the time of publication. Questions or comments about this guide can be emailed to Jason Austin at JAustin@ochca.com.
