Yersiniosis	9	0.3	14	0.5	20	0.6	9	0.3	1	--

<sup>1</sup> Rates are per 100,000 population; rates are not calculated for diseases with less than five reported cases and for conditions with different denominators such as *H. influenzae*, perinatal hepatitis B, pelvic inflammatory disease and outbreaks.

<sup>2</sup> In July 2011, CA-DPH changed this condition to include only reports of dairy workers and food handlers.

<sup>3</sup> In July 2011, CA-DPH expanded the reportable disease criteria to include Rickettsial diseases other than Typhus Fever. Prior to July 2011, the Rickettsial Disease (non-RMSF) category only contained reports of Typhus Fever.

<sup>4</sup> Chickungunya became a reportable disease as of 2014.

Tuberculosis (TB) case counts and rates are available on the TB Fact Sheet, which can be found on the Pulmonary Disease Services website at <http://ochealthinfo.com/phs/about/dcepi/tb>
