Efficacy

74%
at discharge

Challenges & Successes

Challenges

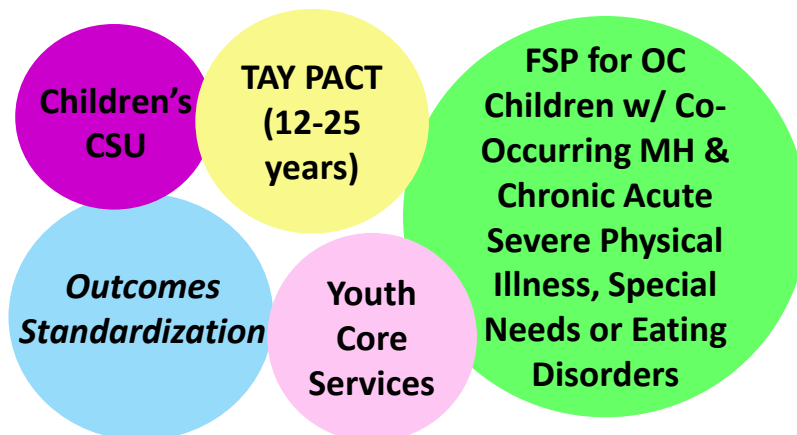

-  Yearly increase in crisis evaluations
-  Shortage of psychiatric beds, especially for children under 12
-  Collecting outcome data
-  Sustaining employment among TAY

Successes

-  Henderson House completed 1st year
-  Crisis Residential opened 3rd location
-  Mental/Physical Health co-occurring clinic program is fully operational

Future Directions

Programs in Development

In Their Own Words...

What I really liked about the program is how staff treated me like a person and not a patient.

- TAY CRP

"I had no one and STAY was my everything and provided me with housing and everything else. Staff listened to me."

- STAY FSP

One thing I liked most about this program was being able to realize a support system."

- Children's In Home Crisis Stabilization

"I have worked with Orangewood for almost 5 years and they are like family to me as they cared for me when others didn't."

- CCFSP (OCF)

What I really liked about the program was the fact that they never stopped working with me throughout all my problems.

- YOW FSP
