Signature: \_\_\_\_\_ Date: \_\_\_\_\_

**Social Work Consultant**

Name and Credentials (typed): Shoshana Volkas, LMFT

Signature: Shoshana Volkas, LMFT Date: 11/30/17

**Health Education Consultant**

Name and Credentials (typed): Juanita Preciado, MPH

Signature: [Signature] Date: 11/8/17

**Nutrition Consultant**

Name and Credentials (typed): [Signature] RD Maridet Ibanez, RD

Signature: [Signature] Date: 11/30/17

## Introduction

This protocol template was adapted by the County of Orange Health Care Agency for use by providers of the Comprehensive Perinatal Services Program (CPSP) based on the Los Angeles County Department of Public Health CPSP protocols. These protocols are to be used with the **CPSP Provider Handbook, 2015 Edition**, and the **CPSP Steps to Take Guidelines, 2015 Edition**.

Protocols are site-specific. Interventions and materials recommended in the protocols may be replaced by those preferred by your clinic's CPSP Provider or Coordinator. Adapt the protocols to reflect your actual practice as needed. For more ideas on developing site-specific protocols, refer to the section of the CPSP Provider Handbook called *Implementing and Maintaining CPSP*.

Copies of your customized protocols must be submitted to your local CPSP Coordinator within 6 months of CPSP certification. Protocols are a staff resource and should be shared with and readily accessible for all CPSP practitioners, including Comprehensive Perinatal Health Workers (CPHWs).

The protocols are generally organized in the following manner: 1) the question as it appears on the assessment tool, 2) information about the topic, 3) reference to the appropriate section of Steps to Take Guidelines, 4) specific interventions designed to meet needs identified by asking the client that particular question, and 5) referral or other resources. If needed, call the Orange County Health Referral Line at 1-800-564-8448 or call 211 for resources.

For further instructions, information or technical assistance regarding CPSP, you may call your local CPSP Coordinator at the following number:

Orange County                      (714) 834-8227

## Client Orientation Protocol

### Purpose:

- To inform the client about her prenatal and postpartum care and services available through the Comprehensive Perinatal Services Program (CPSP)
- To review danger signs and what to do if they happen

### Staffing:

The following level of staff will conduct Client Orientation (mark all that apply):

- ☐ Comprehensive Perinatal Health Worker (CPHW)
- ☐ RN/LVN
- ☐ Other: \_\_\_\_\_

### Procedure:

1. Client orientation will be provided to each new prenatal CPSP client (mark all that apply):
  - ☐ At confirmation of pregnancy
  - ☐ At first obstetric visit
  - ☐ At initial CPSP assessment
  - ☐ Other: \_\_\_\_\_
2. Refer to Steps to Take Guidelines (STT): *First Steps - Orientation to Your Services* and Health Education – *What to Discuss at the First Visit*
3. Confidentiality is a critical component of CPSP. During the client orientation, limits of the client's confidentiality should be outlined such as mandatory reporting laws for child abuse, domestic violence, etc. Inform the client that other members of the health care team will share the information among themselves, on a need to know basis, as needed to deliver the best care possible. Provide a copy of the office's HIPAA Privacy Practices to the client.
4. Initial client orientation must be individual and face-to-face. At least one unit (minimum 8 minutes) must be provided
5. At the initial client orientation, a CPSP practitioner will review with the client a copy of the STT Health Education handout, ***Welcome to Pregnancy Care***, and will discuss the importance and content of postpartum care. Required topics include:
  - Perinatal services to be provided, including CPSP
  - Who will provide services
  - Where services will be provided
  - Danger signs of pregnancy & what to do
  - Client rights and responsibilities (including client confidentiality)
6. Additional orientation may be needed before a new procedure or referral. Review orientation topics previously discussed as needed. If the client has transferred care from another CPSP provider, repeat the client orientation to inform the client of practices at this site.

7. Additional topics/handouts to discuss during client orientation include:

- Substances to avoid during pregnancy (STT Health Education handout – ***Pregnant Steps for a Healthy Baby***)
- Group classes available (at the clinic, hospital, or community)
- Routine lab tests and procedures, including HIV (STT Health Education handout – ***What You Should Know About HIV***)
- Prenatal Screening Program (formerly AFP)
- Delivery site options, including locations, information on tours available, pre-admission information requested by the hospital and routine practices of the hospital
- Financial responsibility
- Fetal kick counts (22-28 wks.) (STT Health Education handout – ***Count Your Baby's Kicks***)
- Other information about services and procedures such as ultrasound, glucose tolerance testing, stress testing, amniocentesis, etc., as these issues arise. Explain the procedures, who will do them, and why they are important. Reinforce any pre- or post-procedure instructions.

8. Provide postpartum orientation to services and referrals; for example, lactation support services, on-going primary care for the client

Documentation:

- Documentation is important for communication and billing and should be clear and complete
- Document all topics discussed, either on the Client Orientation Checklist or Progress Notes. Include orientation content, date, number of minutes, and staff signature and CPSP title
- Written consent to participate in CPSP is not required
- If the client declines to participate in CPSP, a note must be made in the client's medical record which includes any particular reason the client gives for declining services. The client may begin CPSP services at any point throughout her pregnancy, so if she declines during the initial orientation, you may offer at a later time.

## **Prenatal Assessment and Individualized Care Plan Protocol**

### **Purpose:**

- To help the client have a healthy baby by identifying her strengths, as well as problems and learning needs that affect the pregnancy during the first, second and third trimester of her pregnancy
- To develop an Individualized Care Plan to address those needs and build on those strengths

### **Prenatal Assessment Staffing**

The following level of staff will conduct Prenatal Assessments and develop the Individualized Care Plan (mark all that apply):

- ☐ Comprehensive Perinatal Health Worker (CPHW)
- ☐ RN/LVN
- ☐ Registered Dietitian
- ☐ Health Educator
- ☐ Social Worker
- ☐ Other: \_\_\_\_\_

### **Supervising Provider Oversight**

Indicate how the supervising physician will provide oversight of the CPSP services provided by all CPSP practitioners (CPHW, RN, LVN, RD, etc.):

The supervising physician (or his/her designee) will review and sign (select at least one):

- ☐ Prenatal Assessment & Individualized Care Plan
- ☐ 2<sup>nd</sup> Trimester Reassessment
- ☐ 3<sup>rd</sup> Trimester Reassessment
- ☐ Postpartum Assessment & Individualized Care Plan

The supervising physician maintains responsibility of CPSP services but will delegate day-to-day oversight to:

\_\_\_\_\_  
(Must be licensed clinician only – PA, NP, CNM)

\_\_\_\_\_  
Supervising Provider Signature

\_\_\_\_\_  
Date

### **Procedure:**

1. Refer to STT Guidelines: First Steps - *Assessment*
2. The Prenatal Assessment and Individualized Care Plan Tool is designed to be completed by any qualified CPSP practitioner, as defined in Title 22, Section 51179.7. The practitioner must be listed on the provider application or staff update form.
3. A CPSP practitioner must complete the assessment face-to-face with the client in a private setting. It is not appropriate for a client to complete this form by herself or to be conducted over the phone.
4. Conduct the assessment in a conversational manner, and use language appropriate to the client's culture and education level when asking about the topics included in the form.

5. Complete the initial assessment as early as possible in the client's prenatal care, ideally within 4 weeks of entry to care. The initial assessment may occur in the first, second, or third trimester depending on when the client begins her prenatal care. Reassessment must occur in each of the following trimester(s). For example, if a client enters prenatal care in the second trimester, enter the date of the initial assessment in the "Initial" space and "N/A" in the 2<sup>nd</sup> trimester space at the top of the first page. All questions must be asked (unless they are not applicable) at the initial assessment, no matter when in the pregnancy that initial assessment occurs.
6. Responses that are shaded are possible risk factors and usually will require additional questioning for clarification. If risks are identified, intervention(s) are needed according to the protocol, such as education, counseling, and/or referral to other CPSP support services practitioners, community based organizations, public resources, or specialists.
7. Reassessments must occur in the trimester(s) following the initial assessment. The purpose of the reassessments is to follow up on unresolved issues and identify any new problems. Before conducting the reassessments, review the previous assessments and individualized care plan. Not all questions need to be asked again after the initial assessment. The numbers of the reassessment questions that must be repeated are shaded so they can be easily recognized during reassessments.
8. Complete all sections of the assessment form during the appropriate trimester, and use N/A for questions that are not applicable. If the client declines to respond to a question, document "declines to state" on the form and continue with the assessment.
9. At the completion of the assessment, the Individualized Care Plan Summary may be used to summarize the needs and strengths that have been identified and assist the client in prioritizing them. Work with her to set reasonable goals and plans.

#### Documentation:

##### *Client Information:*

- *Date/Weeks:* Date the assessment is conducted and the gestation of the pregnancy in weeks
- *Client Name:* Client's first name, middle initial, and last name
- *Date of Birth:* Client's month, date, and year of birth
- *Health Plan:* Client's health plan, if applicable
- *ID Number:* If applicable, the ID number assigned to your client by your clinic
- *Provider:* The physician or other provider in charge of the client's overall OB/CPSP care
- *Hospital:* Hospital or location where the client plans to deliver
- *Case Coordinator:* Name and CPSP title of the Case Coordinator
- *EDD:* Estimated Date of Delivery, or the due date, is the calculated birthdate of the infant using the first day of the client's last menstrual period. Charts or "OB wheels" can be used for the calculation. Write in the month/day/year.
- *Diagnosis of OB High Risk Condition:* Review the OB record and any notes documented by the OB provider and summarize any high risk conditions noted here. Examples are hypertension, diabetes, sexually transmitted infection.
- *Gravida:* Write in the number of times the client has been pregnant including this one. All pregnancies should be counted regardless of whether they resulted in a live birth or not.
- *Para:* Write in the number of previous deliveries resulting in infants weighing 500 grams or more or having a gestational age of 20 weeks or more, whether alive or dead at delivery. A multiple fetal pregnancy (twins, triplets, etc.) counts as only one delivery.

## Individualized Care Plan & Summary

The Individualized Care Plan (ICP) is integrated into the assessment form and provides a simple way to document the interventions described in the protocols. The ICP consists of education topics, specific handouts in the Steps to Take Guidelines (STT), and referrals to clinic or community resources. The protocols contain additional background information and details about each risk/problem and appropriate interventions and should always be reviewed before planning an intervention. Based on the client's specific needs, mark the appropriate STT section(s) or handout(s) used to provide education or counseling. Each referral should be documented with the name of the person/agency and the date the referral was made.

Acknowledging the client's past and current strengths empowers her to make positive changes during the current pregnancy and in the future. Client strengths should be summarized in the space provided above the Individualized Care Plan Summary. Review STT Guidelines: First Steps - *Essential Elements of Every Client Interaction* for examples of appropriate strengths.

Problems identified on the assessment may be summarized and prioritized in the Individualized Care Plan Summary (ICP). The ICP summary will be a quick, brief way for the client's CPSP team to view the findings of her assessment. In the first three columns, indicate the question number and a brief summary of the problem and goal. Use the last column to document any updates or outcomes at the time of the 2<sup>nd</sup> and 3<sup>rd</sup> trimester reassessments and postpartum, as applicable. Describe the client's progress towards resolving the problem. For example, was the problem resolved? What has changed since the last assessment? This information can include whether she has followed through on the referrals provided, or made changes to her behavior such as her eating or exercise habits, etc.

Prenatal Individualized Care Plan Summary			
#	Problem/Risk/Concern	Client Goal	Updates & Outcomes
30	Client hasn't seen dentist in last 6 months	Receive dental exam & cleaning	<div>2</div> Did not see dentist. States will go by next trimester <div>3</div> Completed exam & cleaning on 9/20/16. No further dental work needed at this time. - Resolved <div>P</div> N/A

Once the Prenatal Assessment and Individualized Care Plan documentation has been completed, the assessor must sign their name, and write their CPSP title, the date, and the amount of time (in minutes) that it took to complete BOTH the Prenatal Assessment and the Individualized Care Plan (ICP). CPSP progress notes should also be legibly signed and the writer's CPSP title, date and minutes spent should also be included.

## Personal Information

## Individualized Care Plan

<p>1. Client age:</p> <ul style="list-style-type: none"><li><input type="checkbox"/> Less than 12 years</li><li><input type="checkbox"/> 12-17 years</li><li><input type="checkbox"/> 18-34 years</li><li><input type="checkbox"/> 35 years or older</li></ul>	<p><b>Clients Age 17 or Younger</b></p> <p>Teens may be at higher risk medically, psychosocially, nutritionally, and in terms of their health education needs. Teenage pregnancy is associated with an increased risk of preterm delivery &amp; low birth weight. Teen girls may limit their food intake in order to stay slim and hide their pregnancy. Such poor eating habits can lead to health problems for her and baby.</p> <p>Additionally, a minor (age 12 or older) can receive pregnancy-related care (including abortion) without her parents' permission, as long as she is capable of giving informed consent. A pregnant minor is eligible for a type of Medi-Cal called "sensitive services" or "minor consent services." Neither the provider nor Medi-Cal may contact the parents. Teens may also need referrals to teen parenting programs or home visitation program.</p> <p>When a client has been the victim of sexual abuse, she is at risk for engaging in sexual activity at an early age. If you are providing services for a pregnant teen, listen carefully for any information that she may have a history of sexual abuse, may have been coerced/forced to have sex, or had sex under any other circumstances that were not voluntary (i.e., she was too intoxicated to give consent, unconscious, etc.). You may need to refer your client to a social worker for further evaluation and support, and/or make a child abuse report.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"><li>• If you suspect sexual assault or other abuse toward the teen, you are mandated to report to the Orange County Child Abuse Registry at: 714-940-1000 or 1-800-207-4464 (24-hour hotline). Refer to the clinic's mandated reporting protocol on pages 42-44</li><li>• Refer to STT First Steps: <i>Approaching Clients of Different Ages</i> and STT Psychosocial: <i>Teen Pregnancy and Parenting</i></li><li>• Refer to text messaging service or social media application</li><li>• Refer to your local teen parenting program(s)</li><li>• Offer a referral to a home visitation program such as Nurse Family Partnership (NFP) or Early Head Start</li><li>• Refer to social worker</li></ul> <p><b>Clients Over 35</b></p> <p>Women over 35 years of age (advanced maternal age) at time of delivery may need additional genetic screening.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"><li>• Refer to provider to determine if a genetic counseling referral is needed and provide orientation as needed</li><li>• Refer to STT First Steps: <i>Approaching Clients of Different Ages</i></li><li>• Refer to text messaging service or social media application</li></ul>								
<p>2. Are you:</p> <table border="0"><tr><td><input type="checkbox"/> Married</td><td><input type="checkbox"/> Single</td></tr><tr><td><input type="checkbox"/> Living with partner</td><td><input type="checkbox"/> Divorced/Separated</td></tr><tr><td><input type="checkbox"/> In a relationship</td><td><input type="checkbox"/> Widowed</td></tr><tr><td><input type="checkbox"/> Other _____</td><td></td></tr></table>	<input type="checkbox"/> Married	<input type="checkbox"/> Single	<input type="checkbox"/> Living with partner	<input type="checkbox"/> Divorced/Separated	<input type="checkbox"/> In a relationship	<input type="checkbox"/> Widowed	<input type="checkbox"/> Other _____		<p>This question may give you an idea of the client's support system.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"><li>• Refer to social worker or applicable community resources for assistance identifying or accessing social support as needed</li></ul>
<input type="checkbox"/> Married	<input type="checkbox"/> Single								
<input type="checkbox"/> Living with partner	<input type="checkbox"/> Divorced/Separated								
<input type="checkbox"/> In a relationship	<input type="checkbox"/> Widowed								
<input type="checkbox"/> Other _____									

<p>3. How long have you lived at your current home?</p> <p><input type="checkbox"/> Over one year</p> <p><input type="checkbox"/> Under one year, previously lived:</p> <p><input type="checkbox"/> Familiar with local area    <input type="checkbox"/> <b>Not familiar with local area</b></p> <p>Place of birth: _____</p>	<p>If the client has lived in their current home for less than a year or has recently emigrated from another country, she may have a weaker support system, be less familiar with community resources, and need more orientation and guidance. A client's place of birth may give information about the client's cultural background.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to STT First Steps: <i>Cultural Considerations, Cross-Cultural Communication, and Clients with Alternative Health Care Experiences</i> and STT Psychosocial: <i>New Immigrant</i></li> <li>• Provide additional orientation to the client as needed</li> </ul>
<p>4. Do you plan to stay in this area for the rest of your pregnancy?</p> <p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> <b>No</b>, explain: _____</p> <p><input type="checkbox"/> <b>Unsure</b>, explain: _____</p>	<p>If the client does not plan to stay in the area, she will need assistance to transfer her care and need counseling on the importance of ongoing and consistent prenatal care.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Discuss the benefits and importance of regular prenatal care for her and the baby</li> <li>• If the client is a Medi-Cal Managed Care Member and is staying in the same county, refer to the appropriate Member Services phone number for help finding a new provider</li> <li>• If the client is leaving the county, she will need to call the Department of Social Services in that county to transfer her Medi-Cal and get a referral to a new provider</li> </ul>
<p>5. How many years of school have you completed?</p> <p><input type="checkbox"/> <b>0-8 years</b></p> <p><input type="checkbox"/> <b>9-11 years</b></p> <p><input type="checkbox"/> 12-16 years</p> <p><input type="checkbox"/> 16+ years</p>	<p>Years of school completed may give you a general idea of the client's reading and comprehension levels.</p> <p>Clients under the age of 18 are required by law to attend school unless they have graduated or passed the California High School Proficiency Exam.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Provide written information based on her education/reading level</li> <li>• If under 18 and has not completed school, provide referral to a school program for pregnant/parenting teens</li> <li>• If over 18, offer referrals to Adult School, English as a Second Language (ESL), or GED programs if the client is interested</li> </ul>
<p>6. What language do you prefer to speak?</p> <p><input type="checkbox"/> English</p> <p><input type="checkbox"/> Spanish</p> <p><input type="checkbox"/> Other: _____</p> <p>What language do you prefer to read?</p> <p><input type="checkbox"/> English</p> <p><input type="checkbox"/> Spanish</p> <p><input type="checkbox"/> Other: _____</p>	<p>Clarify with the client what language she feels most comfortable expressing herself, and what language she would like to receive informational materials.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to STT First Steps: <i>Cross Cultural Communication, Dealing with Language Barriers, and Guidelines for Using Interpreters</i></li> <li>• Contact interpreter service if needed</li> </ul>
<p>7. Which of the following best describes how you read:</p> <p><input type="checkbox"/> Like to read and read often</p> <p><input type="checkbox"/> <b>Can read, but don't read very often</b></p> <p><input type="checkbox"/> <b>Can't read</b></p>	<p>If the client doesn't read very often or can't read, tailor your health education services to her ability. For example, use more audio-visual materials, verbal instruction, or written materials with a lot of pictures.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Provided verbal/visual/written information appropriate for client's ability</li> <li>• Refer to STT First Steps: <i>Low Literacy Guidelines</i></li> </ul>

<p>8. Father of baby:</p> <p>Name: _____</p> <p>Language: _____</p> <p>Education: _____</p> <p>Age: _____</p>	<ul style="list-style-type: none"> <li>• Offer referral to public library or adult literacy program</li> </ul> <p>This response can give you additional information about her support system.</p> <p>You are not required to ask a teen under the age of 18 the age of the baby's father. However, if the teen tells you the age of the father of her baby, you may be required to make a mandated child abuse report depending on the client's age and the age of the father of the baby. For example, if the client is under 14, and the father of the baby is 14 or older, you must make a mandated child abuse report. You must also report if the client is under age 16, and the father of the baby is 21 or older. You can also make a child abuse report any time based on your clinical judgement, regardless of the client's/partner's ages if you have reasonable suspicion that the client engaged in sexual intercourse that was coerced/forced or was in any other way not voluntary (i.e., she was too intoxicated to give consent, unconscious, etc.).</p> <p>If parents are unmarried, establishing paternity is not automatic. The process should be started as soon as possible. Establishing paternity will give the child rights such as the right to financial support from both parents, access to parent's medical benefits, etc. Unmarried parents can establish paternity by signing the voluntary Declaration of Paternity at the hospital or after the child is born. For more information about California's Paternity Opportunity Program (POP) visit:  <a href="http://www.childsup.ca.gov/resources/establishpaternity.aspx">www.childsup.ca.gov/resources/establishpaternity.aspx</a></p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Provide referral for legal assistance where the client can obtain advice regarding paternal responsibilities, including child support</li> <li>• Educate the client about options for declaring paternity. Refer to STT Psychosocial: <i>Teen Pregnancy and Parenting</i> (even if client is not a teen)</li> <li>• You are not required to ask the teen under 18 the age of the baby's father. However, if the teen client tells you the age of the father of her baby review "When Sexual Intercourse is Deemed Child Abuse in California" (see <a href="http://www.teenhealthlaw.org">www.teenhealthlaw.org</a>) for guidance on whether or not you need to file a report</li> <li>• If you suspect sexual assault or other abuse toward the teen, you are mandated to report to Orange County Child Abuse Registry at: 714-940-1000 or 1-800-207-4464 (24-hour hotline). Refer to the clinic's mandated reporting protocol on pages 42-44</li> <li>• Refer to STT Psychosocial: <i>Teen Pregnancy and Parenting</i> and <i>Child Abuse and Neglect</i> for more information</li> </ul>
<p>9. Is this a planned pregnancy?</p> <p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No, describe: _____</p>	<p>10. Is this a wanted pregnancy?</p> <p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> <b>Unsure</b></p> <p><input type="checkbox"/> No, describe: _____</p> <p>Planned pregnancies may mean different things to different cultures. Using open ended questions can help you understand what her beliefs are about pregnancy and family planning. Let her know that you will be asking her questions about family planning later in the pregnancy.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Ask if her unplanned or unwanted pregnancy was due to her partner interfering with her birth control or forcing her to have unprotected sex. If so, inform the client that there are birth control methods her partner does not have to know about that she can discuss with the provider</li> </ul>

## Economic Resources

<p>13. a) Are you currently working or going to school?  <input type="checkbox"/> No    <input checked="" type="checkbox"/> <b>Yes</b>, Type of school/work: _____  Hours per week: _____</p> <p>b) Do you plan to work or go to school while you are pregnant?  <input checked="" type="checkbox"/> <b>Yes</b>    <input type="checkbox"/> No</p> <p>c) Do you plan to return to work/school after baby is born?  <input checked="" type="checkbox"/> <b>Yes</b>    <input type="checkbox"/> No</p>	<p>This question provides information about the client's financial resources and any safety issues in her school or work environment. This is also an opportunity to discuss childcare and breastfeeding plans if she plans to return to work or school after the baby is born.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• If she is under 18 (and has not graduated or passed the California High School Proficiency Exam) she is required by law to attend school. Refer to local school program for pregnant/parenting teens</li> <li>• Refer to STT Health Education: <i>Workplace Safety</i> and handout <b><i>Keep Safe at Work</i></b></li> <li>• Refer to STT Psychosocial: <i>Financial Concerns</i>, <i>Legal/Advocacy Concerns</i></li> <li>• Review and discuss information on pumping/storing breastmilk per STT Nutrition: <i>Breastfeeding</i></li> <li>• Refer to childcare resource</li> </ul>																					
<p>14. Will the father of the baby provide financial support for you and the baby?  <input type="checkbox"/> Yes    <input checked="" type="checkbox"/> <b>No</b>    <input type="checkbox"/> <b>Unsure</b></p> <p>Other sources of financial help: _____</p>	<p>This question gives an indication of the father's involvement and the client's sources of financial support. Support can include not only money, but also groceries, infant supplies, transportation, etc.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Refer to STT Psychosocial: <i>Financial Concerns</i> for information on the father's requirement to pay child support</li> <li>• Refer to STT Psychosocial: <i>Legal/Advocacy Concerns</i></li> <li>• Refer to California Department of Child Support Services at: 1-866-901-3212</li> </ul>																					
<p>15. 37. Have either of your parents had a drug or alcohol problem?

☐ No ☒ Yes, describe: \_\_\_\_\_

Does your partner have a problem with drugs or alcohol?

☐ No ☒ Yes, describe: \_\_\_\_\_

Have you had a problem with drugs or alcohol in the past?

☐ No ☒ Yes, describe: \_\_\_\_\_

38. Have you used drugs or alcohol during this pregnancy? Drugs would include things like marijuana, heroin, cocaine, or ecstasy and alcohol would include things like beer, wine, or liquor.

0-13 Weeks: ☐ No ☒ Yes, describe: \_\_\_\_\_

14-27 Weeks: ☐ No ☒ Yes, describe: \_\_\_\_\_

28-40 Weeks: ☐ No ☒ Yes, describe: \_\_\_\_\_

If you use drugs and/or alcohol, are you interested in quitting?

0-13 Weeks: ☐ N/A ☐ Yes ☒ No

14-27 Weeks: ☐ N/A ☐ Yes ☒ No

28-40 Weeks: ☐ N/A ☐ Yes ☒ No

**Parental Drug/Alcohol Problem:** Childhood abuse, neglect, and traumatic stressors such as parental drug/alcohol problems can increase the client's risk for health and social problems. Additionally, women are more at risk for substance use/abuse if their mother has a history of alcohol/drug use. She may need referrals to support resources.

**Partner Drug/Alcohol Problem:** Drug or alcohol abuse by a partner can be a risk factor for violence including domestic violence and/or intimate partner violence. If the client reports that her partner has a problem with drugs or alcohol, listen for information on how it affects their relationship. Additionally, women are more at risk for substance use/abuse if their partners use drugs and/or alcohol.

**Past Drug/Alcohol Problem:** Women are more at risk to use alcohol and/or drugs during their pregnancy if they have a history of substance use or were frequent users before they became pregnant. There is **no** safe level of street drug or alcohol use for pregnant women. Alcohol is the leading cause of preventable birth defects. Encourage all pregnant women to avoid all drugs and alcohol. Any drug/alcohol consumption can put the mother and baby at risk for a miscarriage, complications with pregnancy, intrauterine death, premature birth, low birth weight, fetal alcohol syndrome, and other physical and mental disabilities.

**Interventions:**

- Refer to STT Health Education: *Drug and Alcohol Use* and handout *You Can Quit Using Drugs or Alcohol*
- Refer to STT Psychosocial: *Perinatal Substance Use/Abuse* and handouts *Your Baby Can't Say "No,"* and *Drugs and Alcohol, When You Want to STOP Using*
- Notify provider immediately if patient responds yes to any of the questions
- Referred to Alcoholics Anonymous (AA)
- Referred to Narcotics Anonymous (NA)
- Refer patient to local Medi-Cal Drug Treatment facility
- Refer patient to social worker for additional counseling and referrals
- If client considers one of her parents to be an addict or alcoholic, refer to Adult Children of Alcoholics, Al-Anon, or Alateen
- Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211

<p>39. Are you taking a prenatal vitamin every day?</p> <p>0-13 Weeks: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>14-27 Weeks: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>28-40 Weeks: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	<p>It is possible for pregnant women to get most of the extra vitamins and minerals they need through a balanced diet, but because certain nutrients are still needed, all pregnant women should take a prenatal vitamin every day. Many women may also take herbal supplements that come from plants or plant parts. These products are often labeled “natural,” leading women to believe they are safe, which may not always be true. Inform the provider of any over the counter or herbal supplements the client is taking.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Confirm that provider has dispensed or prescribed prenatal vitamins if client does not already have a supply</li> <li>• Encourage client to continue taking prenatal vitamins (and any other supplements recommended by provider)</li> <li>• Notify to the provider of any herbal remedies or medications the client is taking</li> <li>• Refer to STT Nutrition: <i>Prenatal Supplements: Vitamins, Minerals, and Other Supplements</i> and handouts <i>Take Prenatal Vitamins and Minerals, If You Need Iron Pills, and You May Need Extra Calcium</i></li> <li>• Refer for information on medications, herbal products, infections, vaccines, maternal medical conditions, illicit substances, and other common exposures such as paint, pesticides, hot tubs, etc.</li> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>
<p>40. Are you taking any prescription, over-the-counter, or herbal medications? Examples: iron, pain medication, antidepressants, antacids, allergy medication, laxatives, or herbal remedies like yerba buena, ginseng, or manzanilla?</p> <p>0-13 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>14-27 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>28-40 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p>	

## Pregnancy Care

<p>41. Besides having a healthy baby, what are your goals for this pregnancy? _____</p>	<p>The client may be able to use this opportunity to make personal changes in her life (e.g., stop smoking, finish school, etc.), rather than focusing on only one goal of “a healthy baby.” Provide resources and support as needed.</p>
<p>42. Do you plan to have someone with you:</p> <p>During labor?</p> <p>14-27 Weeks: <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes: _____</p> <p>28-40 Weeks: <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes: _____</p> <p>When you first come home with the baby?</p> <p>14-27 Weeks: <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes: _____</p> <p>28-40 Weeks: <input checked="" type="checkbox"/> No <input type="checkbox"/> Yes: _____</p>	<p>If the client cannot identify a support person for labor, you should discuss possible resources, including childbirth classes. If she has no support in the immediate postpartum period, this is an opportunity to help the client talk about who will be available to help her care for herself, the newborn (including breastfeeding support), and other children, if any.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Refer to childbirth classes</li> <li>• Refer to home visitation program</li> </ul>
<p>43. If you had a baby before, where was it delivered?</p> <p><input type="checkbox"/> N/A <input type="checkbox"/> Clinic</p> <p><input type="checkbox"/> Hospital <input checked="" type="checkbox"/> Home</p> <p><input type="checkbox"/> Other: _____</p> <p>Did you or the baby have any problems?</p> <p><input type="checkbox"/> No <input checked="" type="checkbox"/> Yes, explain: _____</p>	<p>If the patient delivered at home or in a clinic, it may have been because of complications. Assist the client in making plans to avoid them with this pregnancy.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Notify provider if there were prior complications</li> <li>• If the client is delivering at a different hospital than before, offer her information about the delivery hospital, including tours, registration, parking, and how to get there from her home</li> </ul>

<p>44. Have you ever lost any children? (miscarriage, stillbirth, SIDS, immigration, custody, etc.)</p> <p><input type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> Yes, please explain: _____</p>	<p>“Lost” children may include miscarriages, stillbirths, adoptions, abortions, SIDS (Sudden Infant Death Syndrome), children placed in foster care, etc. The client may have unresolved grief, guilt, depression, anxiety, or trauma that can impact her pregnancy and care of the newborn.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>Refer to STT Psychosocial: <i>Perinatal Loss</i></li> <li>Review and discuss STT Psychosocial handouts: <i>Loss of Your Baby</i> and <i>Ways to Remember Your Baby</i></li> <li>Refer her to a local grief and loss resources appropriate for her type of loss</li> <li>Refer to social worker or local mental health clinic if her mental symptoms affect her ability to take care of herself, family, or work functioning</li> <li>Refer to grief support services</li> </ul>																																																								
<p>45. Do you have any questions about any prenatal tests or procedures?</p> <p>0-13 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>14-27 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>28-40 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p>	<p>Assess the client’s understanding of her current pregnancy health status, provide education about any tests, and answer her questions.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>Refer to STT Appendix: <i>Prenatal Laboratory and Diagnostic Tests</i></li> <li>Answer questions and refer to provider as needed</li> </ul>																																																								
<p>46. <p><b><u>Edema</u></b></p> <p>Edema (swelling of the hands or feet): 60 to 80% of pregnant women will experience edema sometime during their pregnancy.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>Notify provider if there is sudden weight gain or swelling of the face</li> <li>Check client’s blood pressure and notify provider if it is higher than normal</li> <li>Assess dietary intake for nutritional adequacy, especially protein</li> <li>Encourage client to elevate her feet, avoid eating salty foods, and drink at least 8 glasses of water a day</li> </ul>																																																									
<p><b><u>Diarrhea:</u></b></p> <p>Diarrhea may be caused by a number of things, including lactose intolerance, food poisoning, or excessive iron. It is also common later in pregnancy or during early labor.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>Notify health care provider immediately if diarrhea is accompanied by cramping or fever, if it has lasted for more than a few days, if it contains blood or mucus, or if she starts to get dehydrated</li> </ul>																																																									

- If client is lactose intolerant, refer to STT Nutrition: *Lactose Intolerance*. Review and discuss STT Nutrition handouts: *Do You Have Trouble with Milk Foods?* and *Foods Rich in Calcium*

### **Constipation**

Constipation is a common discomfort in pregnancy. Many women may wish to use laxatives for the relief of constipation. Taking certain laxatives can be harmful to pregnant women and their babies.

#### **Interventions:**

- Refer to STT Nutrition: *Constipation*
- Review and discuss STT Nutrition handouts: *Constipation: What You Can Do* and *Constipation: What Products You Can and Cannot Use*
- Notify health care provider if the client also complains of back pain or has not had a bowel movement for more than several days

### **Nausea/Vomiting**

Nausea and vomiting occurs in about half of all pregnancies, especially between the 2<sup>nd</sup> and 16<sup>th</sup> weeks gestation. These symptoms are usually worse in the morning, but can happen at any time. Nausea and vomiting can be caused by hormonal changes, psychological factors such as anxiety about the pregnancy, and poor diet habits. Hyperemesis gravidarum is a serious problem in pregnancy that involves uncontrolled, repeated episodes of vomiting. It can also cause rapid weight loss and other problems.

#### **Interventions:**

- Notify health care provider if:
  - Current weight loss is more than 5 lbs. below pre-pregnancy weight or more than 3 lbs. from her last visit
  - If symptoms have worsened and vomiting is not controlled
  - If there is no weight gain by 16 weeks
  - If she has dizziness, weakness, fainting or headaches that do not go away
  - If vomiting lasts for 24 hours or it cannot be stopped except by not having any food and fluids
- Refer to STT Nutrition: *Nausea and Vomiting* and STT Nutrition handouts: *Nausea: Tips that Help*, *Nausea: What To Do When You Vomit*, and *Nausea: Choose These Foods*

### **Leg Cramps**

Leg cramps may occur in some women during the second half of pregnancy. The cause of leg cramps during pregnancy is unknown, but good nutrition without excessive amounts of any nutrients is a good idea.

#### **Interventions:**

- Encourage adequate calcium intake from foods such as milk and milk products
- Encourage adequate magnesium intake from eating dark leafy green vegetables (spinach, kale or Swiss chard), beans, lentils, bananas, and whole grain breads and cereals
- Encourage the client to stretch her legs (especially her calves) before going to bed to help reduce chances of getting leg cramps. Tell her to avoid pointing her toes when stretching or exercising
- Notify health care provider if the pain is frequent and severe or if she has any redness, warmth, swelling or tenderness in her leg

### **Hemorrhoids**

Hemorrhoids are caused by the pressure of the pregnant uterus interfering with circulation and are aggravated by constipation.

#### **Interventions:**

- Instruct the client in the prevention and treatment of constipation
- Discuss use of cold compresses with or without witch hazel or Epsom salts
- Talk about careful hygiene - keeping the anal area clean helps prevent itching and burning
- Discuss use of any topical medications with the health care provider before use
- Notify health care provider if there are symptoms unrelieved by cold compresses and/or witch hazel (witch hazel is inexpensive and available over-the-counter)

### **Heartburn**

Heartburn (gastroesophageal reflux) is a burning pain that happens in the mid chest area when the opening to the stomach relaxes and food and acid comes back up from the stomach to the esophagus.

#### **Interventions:**

- Refer to STT Nutrition: *Heartburn*
- Review and discuss STT Nutrition handouts: *Heartburn: What You Can Do* and *Heartburn: Should You Use Antacids?*
- Refer to the health care provider if heartburn continues or worsens, if weight gain is inadequate, or if the woman is taking large amounts of antacids

### **Varicose veins**

Varicose veins may affect the legs, vulva, and pelvis. They can be caused by heredity, pressure of the pregnant uterus on the large veins of the pelvis, prolonged standing, or restrictive clothing.

#### **Interventions:**

- Encourage client to avoid restrictive clothing, elevate legs and hips on pillows, use supportive stockings, and take frequent breaks to sit down if standing for long periods of time
- Refer to the health care provider if varicose veins are causing pain or discomfort

### **Headaches**

Severe, persistent headache is a danger sign and must be reported to the health care provider immediately.

#### **Intervention:**

- Occasional headaches may be relieved by relaxation techniques, massage, bath or shower, cool compress, and/or mild analgesics when recommended by the health care provider

### **Backaches**

Backaches in pregnancy may be caused by normal strain on the back from carrying the extra weight of pregnancy. Backaches may also be a sign of preterm labor so it is important to remind all clients of the signs of preterm labor and the procedure to follow if they occur.

#### **Interventions:**

- Refer to STT Health Education: *Preterm Labor* and STT Health Education handout: *If Your Labor Starts Too Early*
- Refer to STT Health Education: *Safe Exercise and Lifting* and handout: *Exercises To Do When You Are Pregnant*

### **Vaginal bleeding**

Vaginal bleeding is a danger sign in pregnancy and must be reported to the health care provider immediately.

#### **Interventions:**

- Notify healthcare provider immediately
- Refer to STT Health Education: *Preterm Labor*
- Review and discuss STT Health Education handout: *If Your Labor Starts Too Early*

### **Abdominal cramping/contractions**

Abdominal cramping and/or contractions are danger signs in pregnancy and must be reported to the health care provider immediately.

#### **Interventions:**

- Notify healthcare provider immediately
- Refer to STT Health Education: *Preterm Labor*
- Review and discuss STT Health Education handout: *If Your Labor Starts Too Early*

<p>47. Does the doctor say there are any problems with this pregnancy?</p> <p>0-13 Weeks:    <input type="checkbox"/> No    <input checked="" type="checkbox"/> Yes: _____</p> <p>14-27 Weeks:   <input type="checkbox"/> No    <input checked="" type="checkbox"/> Yes: _____</p> <p>28-40 Weeks:   <input type="checkbox"/> No    <input checked="" type="checkbox"/> Yes: _____</p>	<p>This question offers an opportunity to assess the client's understanding of her current pregnancy health status and provide teaching, counseling and referrals.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Refer to the provider or health educator for complex medical or obstetrical problems</li> <li>• See the STT Nutrition Introduction for a list of problems that may require referral to a registered dietitian</li> <li>• Depending on the problem, refer to: STT Health Education - <i>Preterm Labor, Kick Counts, Labor Induction, Multiple Births - Twins and More</i></li> <li>• Review and discuss the appropriate STT Health Education handouts: <i>If Your Labor Starts Too Early, Count Your Baby's Kicks, What You Need to Know About Labor Induction</i>, and <i>Getting Ready for Multiples</i></li> <li>• Refer to Prenatal Diagnostic Center (PDC) as appropriate</li> </ul>
<p>48. Compared to your previous pregnancies, is there anything you would like to change about the care you receive this time?</p> <p><input type="checkbox"/> N/A    <input type="checkbox"/> No    <input checked="" type="checkbox"/> Yes, explain: _____</p>	<p>Do not ask this question unless there have been previous pregnancies. The information the client shares can be an empowering way for her to ask for what she wants or doesn't want during this pregnancy.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Notify provider of the client's requests or concerns</li> <li>• Provide information or referrals as appropriate</li> </ul>
<p>49. Who has given you the most advice about your pregnancy?</p> <p><input type="checkbox"/> Mother                      <input type="checkbox"/> Grandmother</p> <p><input type="checkbox"/> Partner                      <input type="checkbox"/> Mother-in-law</p> <p><input type="checkbox"/> Friend                        <input checked="" type="checkbox"/> No one</p> <p><input type="checkbox"/> Other: _____</p> <p>50. What are the most important things they have told you? Describe: _____</p>	<p>This question will help identify who is involved in the client's care. The client's responses may reveal misinformation, cultural practices, and/or what type of social support she has.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Notify provider regarding any harmful advice</li> <li>• Encourage client to have support person participate in prenatal education/classes</li> </ul>
<p>51. Do you have any traditions, customs or religious beliefs about pregnancy?</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> Yes: Please explain: _____</p> <p>If yes, Conflicts with medical recommendations?</p> <p><input type="checkbox"/> No    <input checked="" type="checkbox"/> Yes</p>	<p>Acknowledging cultural and religious customs may increase the client's participation in her pregnancy care. In some cases, the client's customs may be in conflict with medical recommendations. It is important to take the time to evaluate these situations with the medical provider.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Refer to provider for discussion of any potentially harmful practices</li> <li>• Refer to STT First Steps: <i>Cultural Considerations, Cross-Cultural Communication</i>, and <i>Clients with Alternative Health Care Experiences</i></li> </ul>

<p>52. Would you like to become pregnant in the next 18 months?</p> <p>14-27 Weeks: <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>28-40 Weeks: <input type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>Unplanned pregnancies are known to have worse health outcomes for both the mother and the infant. Unplanned pregnancies can also lead to social problems such as increasing family stress, increasing the need for financial support programs, and increasing the risk for family violence. It is recommended for most women to space their pregnancies at least 18 months to ensure that their pregnancy is wanted, planned, and as healthy as possible.</p>																				
<p>53. Has your partner ever pressured you to become pregnant, interfered with your birth control, or refused to wear a condom?</p> <p><input type="checkbox"/> Never <input type="checkbox"/> Sometimes <input type="checkbox"/> Often</p>	<p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Emphasize the importance of waiting 18 months between pregnancies.</li> <li>• Review and discuss STT Health Education: <i>Family Planning Choices</i></li> <li>• Refer to the provider to discuss the effectiveness of her chosen birth control method and the different options available based on plans for spacing future pregnancies</li> <li>• If the client reports that her partner pressures her to become pregnant or interferes with her birth control, encourage client to talk to an OB or family planning provider about birth control methods that are less detectable (such as a shot, implant, or an IUD with the strings trimmed)</li> <li>• Birth control methods with estrogen may interfere with breastmilk production. Refer to provider for further discussion of options that do not interfere with breastfeeding</li> <li>• Medi-Cal clients who request sterilization may have a mandatory waiting period (i.e. 30 days) after signing the informed consent form</li> </ul>																				
<p>54. Do you plan to use birth control after this pregnancy?</p> <p>14-27 Weeks: <input type="checkbox"/> No <input type="checkbox"/> Undecided <input type="checkbox"/> If yes, what method(s):</p> <p>28-40 Weeks: <input type="checkbox"/> No <input type="checkbox"/> Undecided <input type="checkbox"/> If yes, what method(s):</p> <p><u>Most effective methods (when used correctly)</u></p> <p><input type="checkbox"/> IUD <input type="checkbox"/> Vasectomy <input type="checkbox"/> Patch</p> <p><input type="checkbox"/> Implant <input type="checkbox"/> Injection/shot <input type="checkbox"/> Ring</p> <p><input type="checkbox"/> Tubal ligation <input type="checkbox"/> Pills</p> <p><u>Less effective methods (higher failure rate)</u></p> <p><input type="checkbox"/> Condoms <input type="checkbox"/> Diaphragm <input type="checkbox"/> Abstinence</p> <p><input type="checkbox"/> Spermicides <input type="checkbox"/> Cervical cap <input type="checkbox"/> Withdrawal</p> <p><input type="checkbox"/> Fertility awareness methods</p> <p><input type="checkbox"/> Other: _____</p>	<p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Emphasize the importance of waiting 18 months between pregnancies.</li> <li>• Review and discuss STT Health Education: <i>Family Planning Choices</i></li> <li>• Refer to the provider to discuss the effectiveness of her chosen birth control method and the different options available based on plans for spacing future pregnancies</li> <li>• If the client reports that her partner pressures her to become pregnant or interferes with her birth control, encourage client to talk to an OB or family planning provider about birth control methods that are less detectable (such as a shot, implant, or an IUD with the strings trimmed)</li> <li>• Birth control methods with estrogen may interfere with breastmilk production. ### Nutrition: Anthropometric

<p>64. Weight gain in last pregnancy: _____ lbs. <input type="checkbox"/> Unknown <input type="checkbox"/> N/A</p> <p>65. Pre-pregnant weight: _____ lbs.</p> <p>Height: _____</p> <p>Recommended weight gain goal for this pregnancy:</p> <p><b><u>Single Pregnancy</u></b></p> <p><input type="checkbox"/> Underweight: 28-40 lbs</p> <p><input type="checkbox"/> Normal weight: 25-35 lbs</p> <p><input type="checkbox"/> Overweight: 15-25 lbs</p> <p><input type="checkbox"/> Obese: 11-20 lbs</p> <p><b><u>Twin Pregnancy</u></b></p> <p><input type="checkbox"/> Normal: 37-54 lbs</p> <p><input type="checkbox"/> Overweight: 31-50 lbs</p> <p><input type="checkbox"/> Obese: 25-42 lbs</p>	<p>Asking a woman about her weight gain during her last pregnancy can give you an idea about her possible weight gain pattern for this pregnancy. If she gained too little or too much weight in her last pregnancy, you can take the opportunity to provide education to assist her in having a healthier weight gain pattern for this pregnancy.</p> <p>All women should gain weight during pregnancy. An appropriate weight gain goal is determined by her height and pre-pregnant weight, and whether it is a single or twin pregnancy. Women who are overweight or underweight may need more comprehensive nutrition care.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to STT Nutrition: <i>Weight Gain During Pregnancy</i>-Section: "How to Determine Gestational Weight Gain Goals and Assess Weight Gain"</li> </ul> <p><b><u>Underweight:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to STT Nutrition: <i>Weight Gain During Pregnancy</i> –Section: "Underweight"</li> <li>• Review and discuss STT Nutrition handouts: <i>MyPlate for Moms</i> and <i>Tips to Gain Weight</i></li> <li>• Recommend regular meals and larger portions</li> </ul>
--	--

- Discuss weight gain goal per month = 3-4 lbs for single pregnancy

Overweight:

- Refer to STT Nutrition: *Weight Gain During Pregnancy* – Section: “*Overweight*”
- Review and discuss STT Nutrition handout: *MyPlate for Moms*
- Recommend smaller portions, more fruits and vegetables, and low/nonfat foods
- Discuss weight gain goal per month = 2-3 lbs after 16<sup>th</sup> week for single pregnancy

Obese:

- Refer to STT Nutrition: *Weight Gain During Pregnancy* – Section: “*Obese*”
- Review and discuss STT Nutrition handout: *MyPlate for Moms*
- Recommend smaller portions, more fruits and vegetables, and low/nonfat foods
- Discuss weight gain goal per month = 2.5 lbs after 16<sup>th</sup> week for single pregnancy

66. Net Weight Gain

0-13 Weeks: \_\_\_\_\_ lbs.

- |                                    |                                      |
|------------------------------------|--------------------------------------|
| <input type="checkbox"/> Adequate  | <input type="checkbox"/> Inadequate  |
| <input type="checkbox"/> Excessive | <input type="checkbox"/> Weight Loss |

14-27 Weeks: \_\_\_\_\_ lbs.

- |                                    |                                      |
|------------------------------------|--------------------------------------|
| <input type="checkbox"/> Adequate  | <input type="checkbox"/> Inadequate  |
| <input type="checkbox"/> Excessive | <input type="checkbox"/> Weight Loss |

28-40 Weeks: \_\_\_\_\_ lbs.

- |                                    |                                      |
|------------------------------------|--------------------------------------|
| <input type="checkbox"/> Adequate  | <input type="checkbox"/> Inadequate  |
| <input type="checkbox"/> Excessive | <input type="checkbox"/> Weight Loss |

In pregnancy, the total amount gained and rate of weight gain are important for good health. Net weight gain is based on pre-pregnant weight. Some clients, including many teen girls, may limit their food intake in order to stay slim and/or hide their pregnancy. Encourage healthy eating habits and make appropriate referrals, since poor eating habits can lead to health problems for her and baby.

Interventions:

- Refer to STT Nutrition: *Weight Gain During Pregnancy* to determine client’s recommended net weight gain
- Provide information to the client about any age-related nutritional needs (i.e., extra iron/calcium)
- Give referral to registered dietitian if:
  - Weight loss of 5 or more lbs in the first 12 weeks of gestation
  - More than 5 lbs below reported pre-pregnant weight
  - Weight loss of 3 or more lbs since the last visit
  - Eating disorders are found or if she is choosing not to eat enough food

Excessive Weight Gain:

- Discuss risk of larger baby and delivery complications
- Review and discuss STT Nutrition handout: *Tips to Slow Weight Gain*
- Recommend low fat foods, more water, and less sugary drinks like soda and juice

Inadequate Weight Gain:

- Discuss risk of preterm/low birth weight baby
- Review and discuss STT Nutrition handout: *Tips to Gain Weight*
- Recommend more frequent, calorie-dense meals

Weight Loss:

- Notify provider
- Discuss risk of preterm/low birth weight baby
- Review and discuss STT Nutrition handout: *Tips to Gain Weight*
- Recommend more frequent, calorie-dense meals

## Nutrition: Biochemical

67. Consult with provider if there are abnormal lab values and discuss treatment prescribed.

0-13 Weeks: Date blood drawn: \_\_\_\_\_  
 Hgb: \_\_\_\_\_ (<11g/L) Hct: \_\_\_\_\_ (<33%)  
 Glucose: \_\_\_\_\_ MCV: \_\_\_\_\_

14-27 Weeks: Date blood drawn: \_\_\_\_\_  
 Hgb: \_\_\_\_\_ (<10.5 g/L) Hct: \_\_\_\_\_ (<32%)  
 Glucose: \_\_\_\_\_ MCV: \_\_\_\_\_

28-40 Weeks: Date blood drawn: \_\_\_\_\_  
 Hgb: \_\_\_\_\_ (<11 g/L) Hct: \_\_\_\_\_ (<33%)  
 Glucose: \_\_\_\_\_ MCV: \_\_\_\_\_

### OGTT

Initial Prenatal Visit (if applicable)  
 Date: \_\_\_\_\_  
 Fasting: \_\_\_\_\_ 1 Hr: \_\_\_\_\_ 2 Hr: \_\_\_\_\_  
☐ N/A

24-28 weeks:  
 Date: \_\_\_\_\_  
 Fasting: \_\_\_\_\_ 1 Hr: \_\_\_\_\_ 2 Hr: \_\_\_\_\_

These tests can tell the medical provider if the client is anemic or diabetic.

Anemia means she does not have enough iron in her red blood cells. Lack of iron can restrict the amount of oxygen that gets to her cells. Anemia increases the risk for preterm birth, low birth weight, and other medical problems.

Abnormal glucose values may indicate the need for further screening for Gestational Diabetes Mellitus (GDM).

**Screening for GDM: Oral Glucose Tolerance Test (OGTT)**  
 ACOG recommends that women with any of the following risk factors be tested for GDM at their first prenatal visit:

- Increased weight (i.e., BMI greater than 25)
- Decreased physical activity
- First degree relative with diabetes
- Member of ethnic group with high prevalence of diabetes (African American, Latino, American Indian, Asian American, Pacific Islander)
- Prior history of GDM or delivery of a baby greater than 9 lbs
- Metabolic abnormalities (hypertension, HDL <35mg/dL, triglyceride level >250mg/dL)
- Polycystic ovarian syndrome
- HbA1C 5.7% or higher
- Impaired glucose tolerance or impaired fasting glucose testing in the past
- Evidence of insulin resistance (acanthosis or severe obesity)
- History of cardiovascular disease

Women with no known history or risk factors should be tested between 24-28 weeks.

Diagnostic blood glucose values (with a 75gm, 2 hour OGTT):

- Fasting:  $\geq 92$  mg/dL
- 1 hour:  $\geq 180$  mg/dL
- 2 hours:  $\geq 153$  mg/dL

One abnormal value is diagnostic of GDM

### Interventions:

- Notify provider of any abnormal lab values
- Test results of less than 11gms for hemoglobin or less than 33% for hematocrit may indicate anemia; however, variations in these values can also be related to normal pregnancy changes
- Clients whose results indicate anemia should be encouraged to eat foods high in iron and vitamin C
- Refer to interventions in question 69 if she has iron deficiency anemia
- Refer to interventions in question 70 if she has GDM

## Nutrition: Clinical

<p>68. Current serious infections? (Ex: Kidney infection, HIV, TB, etc.)</p> <p>0-13 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>14-27 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>28-40 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p>	<p>Nutritional needs increase with serious infections due to problems with digestion and absorption of foods and increased need for nutrients to help repair body tissues.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>Refer to dietitian and/or medical/OB provider for HIV, hepatitis, tuberculosis, kidney infection, or any other type of infection</li> </ul>
<p>69. Anemia</p> <p>0-13 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>14-27 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>28-40 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p>	<p>Anemia occurs when there is a problem with the red blood cells. This can cause a lack of enough oxygen getting to the cells and organs in the body.</p> <p><u>Iron-deficiency anemia</u> - the most common form of anemia (low hemoglobin and hematocrit levels in the blood)</p> <p><u>Folic acid deficiency anemia</u> - high MCV value (&gt;95)</p> <p><u>Vitamin B<sub>12</sub> anemia</u> - the least common form of anemia, but can occur if the client is a strict vegetarian who eats no animal proteins (also known as a vegan diet)</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>Refer to STT Nutrition: <i>Iron Deficiency and Other Anemias</i></li> <li>Refer to registered dietitian and/or medical/OB provider if: <ul style="list-style-type: none"> <li>Anemia has not improved within 1 month of the start of treatment</li> <li>Client has a history of Sickle Cell disease or other medical disorders known to cause anemia</li> <li>Client is unable or unwilling to take iron supplements due to discomforts</li> <li>Vegan food practices with limited food choices</li> </ul> </li> </ul> <p><u>Iron-deficiency anemia</u></p> <ul style="list-style-type: none"> <li>Provide client with a copy of STT Nutrition handouts: <i>Get the Iron You Need, Iron Tips, Iron Tips – Take Two!, and My Action Plan for Iron</i></li> </ul> <p><u>Folic Acid Deficiency Anemia</u></p> <ul style="list-style-type: none"> <li>Review and discuss STT Nutrition handouts: <i>Get the Folic Acid You Need and Folic Acid: Every Woman, Every Day</i></li> </ul> <p><u>Vitamin B<sub>12</sub> Deficiency Anemia</u></p> <ul style="list-style-type: none"> <li>Refer to STT Nutrition: <i>Vegetarian Eating</i></li> <li>Review and discuss STT Nutrition handouts: <i>When You Are Vegetarian: What You Need to Know</i></li> <li>Review and discuss STT Nutrition handout: <i>Vitamin B<sub>12</sub> is Important</i></li> <li>Refer to provider to discuss Vitamin B<sub>12</sub> injections</li> </ul>

<p>70. Diabetes</p> <p>Pre-pregnancy: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes</p> <p>Past pregnancy: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes</p> <p>Current pregnancy:</p> <p>0-13 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes</p> <p>14-27 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes</p> <p>28-40 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes</p>	<p>Having diabetes either as a pre-pregnancy condition or a condition that develops during pregnancy increases the risk for birth defects and for having a big (large for gestational age) baby.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• If client had diabetes in past pregnancy and was told that her diabetes went away after delivery (gestational diabetes mellitus - GDM), stress the importance of keeping all prenatal appointments and labs, as well as maintain a healthy diet and moderate exercise. Women with GDM are at increased risk for developing Type 2 diabetes later in life.</li> <li>• Review and discuss STT Gestational Diabetes: <i>Gestational Diabetes Mellitus (GDM)</i></li> <li>• Review and discuss STT Gestational Diabetes handouts: <i>MyPlate for Moms for Gestational Diabetes, If You Have Diabetes While You Are Pregnant: Questions You May Have</i>, and <i>If You Have Diabetes While You Are Pregnant: Ways to Lower Your Stress</i></li> <li>• Refer to registered dietitian</li> <li>• Refer to a diabetes specialist or California Diabetes and Pregnancy Program (CDAPP) Sweet Success Affiliate by calling 1-714-921-9755</li> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>
<p>71. History of poor pregnancy outcome (low birth weight, preterm labor/delivery, large for gest. age)  <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>73. Other medical/OB problems? (Ex: thyroid, cancer, lupus, etc.)</p> <p>0-13 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>14-27 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>28-40 Weeks: <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p>	<p>Hypertension is another name for high blood pressure. Chronic (ongoing) hypertension may affect the baby's growth. The use of certain hypertension medications may interfere with the digestion and absorption of certain nutrients, and may not be safe during pregnancy. Hypertension can also increase the risk of heart disease.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Stress the importance of keeping all health care provider appointments for any existing medical/OB problems.</li> <li>• Review and discuss STT Health Education handout: <i>Signs and Symptoms of Heart Disease During Pregnancy and Postpartum</i></li> <li>• Refer to registered dietitian and/or medical/obstetrical provider if hypertension exists in current pregnancy. The provider should discuss treatment options, including medication, and should discuss whether exercise is safe or not</li> <li>• Refer for information on medications, herbal products, infections, vaccines, maternal medical conditions, illicit substances, and other common exposures such as paint, pesticides, hot tubs, etc.</li> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>
<p>74. Pregnancy interval &lt; 18 months? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>75. High parity? (≥ 4 births) <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>These conditions put the client at risk for low birth weight babies, preterm delivery, and prenatal morbidity and mortality due to a decreased nutritional status.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Discuss the importance of a healthy diet to get the nutrients and calories she needs</li> <li>• Discuss the importance of taking prenatal vitamins every day</li> <li>• Discuss with the client her increased risk status and the pregnancy interval recommended by her healthcare provider</li> </ul>

<p>76. Multiple gestation? <input type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>Nutritional needs and weight gain goals will change if the client is carrying more than one baby. Multiple gestation also puts the client at an increased risk for preterm labor.</p> <p>Use the appropriate weight gain grid for twins. Just like with a single pregnancy, the amount of weight a woman should gain depends on her pre-pregnancy weight.</p> <table border="1" style="margin: 10px auto; width: 80%; border-collapse: collapse; text-align: center;"> <tr> <th>Weight Category</th> <th>Single</th> <th>Twins</th> </tr> <tr> <td>Underweight</td> <td>28-40 lbs.</td> <td>N/A</td> </tr> <tr> <td>Normal</td> <td>25-35 lbs.</td> <td>37-54 lbs.</td> </tr> <tr> <td>Overweight</td> <td>15-25 lbs.</td> <td>31-50 lbs.</td> </tr> <tr> <td>Obese</td> <td>11-20 lbs.</td> <td>25-42 lbs.</td> </tr> </table> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>Refer to STT Health Education: <i>Multiple Births—Twins and More</i></li> <li>Review &amp; discuss STT Health Education handouts: <i>Getting Ready for Multiples</i> and <i>Baby Products: Discounts and Coupons</i></li> <li>Review &amp; discuss STT Health Education handout: <i>If Your Labor Starts Too Early</i>. Encourage her to call immediately if she experiences those warning signs</li> <li>Refer to registered dietitian for regular nutrition assessments and counseling</li> </ul>	Weight Category	Single	Twins	Underweight	28-40 lbs.	N/A	Normal	25-35 lbs.	37-54 lbs.	Overweight	15-25 lbs.	31-50 lbs.	Obese	11-20 lbs.	25-42 lbs.
Weight Category	Single	Twins														
Underweight	28-40 lbs.	N/A														
Normal	25-35 lbs.	37-54 lbs.														
Overweight	15-25 lbs.	31-50 lbs.														
Obese	11-20 lbs.	25-42 lbs.														
<p>77. Are you currently breastfeeding? <input type="checkbox"/> Yes <input type="checkbox"/> No</p>	<p>Breastfeeding while pregnant is safe for most women, but extra calories and nutrients are needed for both breastfeeding and for the pregnancy itself. The client will need to make sure she is getting enough calories and nutrients in her diet to gain an appropriate amount of weight each month.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>Refer to provider if the client has a history of miscarriage or preterm labor and she is currently breastfeeding while pregnant</li> <li>Discuss the importance of adequate food intake and meeting her weight gain goals each month</li> <li>Give referral to registered dietitian if client wishes to keep breastfeeding, but is not gaining enough weight</li> </ul>															

### Nutrition: Dietary

<p>78. Have your eating habits changed since you've been pregnant?</p> <p>0-13 Weeks: <input type="checkbox"/> No <input type="checkbox"/> Yes: _____</p> <p>14-27 Weeks: <input type="checkbox"/> No <input type="checkbox"/> Yes: _____</p> <p>28-40 Weeks: <input type="checkbox"/> No <input type="checkbox"/> Yes: _____</p>	<p>Pregnant women should strive to eat balanced, regular meals of the recommended amount from each food group. Women may experience cravings from time to time, but binge eating or skipping meals can be harmful to mom and baby.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>Review client's pregnancy weight, BMI, and weight gain goal for each month. Check to see if she's meeting her weight gain goal according to her BMI</li> <li>If the client is not gaining enough weight or is eating less of any core nutrient, review &amp; discuss STT Nutrition handout: <i>MyPlate for Moms</i>, highlighting the food groups she's lacking and proper portion sizes</li> </ul>
---	--

	<ul style="list-style-type: none"> <li>If the client is gaining too much weight or is eating too much of any core nutrient (especially fats &amp; sweets), review &amp; discuss STT Nutrition handout: <b><i>MyPlate for Moms</i></b>, highlighting more nutritious food groups and proper portion sizes</li> </ul>
<p>79. Do you ever crave/eat any of the following:</p> <p><input type="checkbox"/> <b>Yes:</b> Ice, freezer frost, corn starch, dirt, paint chips, plaster, clay, pottery, paste, other: _____</p> <p><input type="checkbox"/> No</p>	<p>Pica is the craving for nonfood items. Excessive intake of these nonfood items may take the place of nutritious foods in the diet and can interfere with the body's absorption of iron. Some of these nonfoods may include items with lead and be toxic.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>Refer to STT Nutrition: <i>Pica</i></li> <li>Review STT Nutrition handout: <b><i>MyPlate for Moms</i></b> with the client to help reinforce what the client needs to eat for a healthy pregnancy</li> <li>Refer to provider and/or registered dietitian to assess for potential medical problems, determine if the item contains toxic substances, or could result in medical or nutrition problems</li> </ul>
<p>80.</p> <p>a) Number of meals/day: _____</p> <p>b) Meals often skipped?</p> <p><input type="checkbox"/> <b>Yes</b></p> <p><input type="checkbox"/> No</p> <p>c) Number of snacks/day: _____</p>	<p>Eating fewer than 3 meals a day and/or skipping meals may result in a diet that is inadequate for pregnancy. If the client often skips meals, this may indicate a more serious problem.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>Review STT Nutrition handout: <b><i>MyPlate for Moms</i></b> and discuss the amount of food she needs for a healthy pregnancy</li> <li>Talk about the importance of eating foods from all of the different food groups, and the need to eat meals and snacks at regular times throughout the day</li> <li>Encourage the client to carry small snacks if she will be out, and to try to eat every 4-6 hours</li> <li>If her diet assessment indicates that she is low in several food groups and/or the client skips meals on a regular basis, this may indicate a greater problem and/or an eating disorder, and increases the risk for poor nutrition. Refer to CPSP provider and/or registered dietitian</li> </ul>
<p>81. Who does the following in your home?</p> <p>a) Buys food: _____</p> <p>b) Cooks/prepares food: _____</p>	<p>Food choices and availability may be limited if the client has little control over what foods are purchased and/or how these foods are prepared. If she is the one who cooks, she will need to know how to safely store and prepare food to prevent food-borne illnesses.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>Refer to STT Nutrition: <i>Getting Healthy Foods</i></li> <li>Review and discuss STT Nutrition handouts: <b><i>Tips for Healthy Food Shopping, You Can Buy Healthy Food on a Budget, and You Can Stretch Your Dollars: Choose These Easy Meals</i></b></li> <li>Refer to STT Nutrition: <i>Cooking &amp; Food Storage</i> and <i>Food Safety</i></li> <li>Review and discuss STT Nutrition handouts: <b><i>Tips for Cooking and Storing Food, Don't Get Sick From the Foods You Eat, Eat Fish Safely – Tips, Checklist for Food Safety, Lower Your Chances of Eating Food with Unsafe Chemicals in Them, and Tips for Keeping Foods Safe</i></b></li> </ul>

<p>82. Are you on any special diet (medical diet, personal diet, etc.)?</p> <p>0-13 Weeks:</p> <p><input type="checkbox"/> Yes, explain: _____</p> <p><input type="checkbox"/> No</p> <p>14-27 weeks:</p> <p><input type="checkbox"/> Yes, explain: _____</p> <p><input type="checkbox"/> No</p> <p>28-40 weeks:</p> <p><input type="checkbox"/> Yes, explain: _____</p> <p><input type="checkbox"/> No</p>	<p>Sometimes clients are placed on diets by a healthcare professional for medical reasons (i.e., diabetic diet, low salt diet, gluten-free diet, etc.). Other times clients go on diets for personal reasons, including weight loss. It is important to ask the client to describe what specific diet she is on and why.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• If client is on a weight loss diet, stress that pregnancy is not the time to lose weight, but to gain it. Weight loss interferes with the needs of the growing baby. Refer to STT Nutrition: <i>Weight Gain During Pregnancy</i> and discuss her specific weight gain goals based on her pre-pregnancy weight category</li> <li>• Review &amp; discuss STT Nutrition handout: <i>MyPlate for Moms</i> and emphasize serving sizes recommended for pregnancy</li> <li>• Refer to registered dietitian and/or medical/obstetrical provider for conditions requiring medical nutrition therapy such as diabetes, liver disease, renal disease, cancer, and GI disturbances that exist in current pregnancy</li> </ul>
<p>83. Any food allergies?</p> <p><input type="checkbox"/> No <input type="checkbox"/> Yes: _____</p> <p>Any foods/beverages you avoid?</p> <p><input type="checkbox"/> No <input type="checkbox"/> Yes: _____</p>	<p>Food allergies are not the same as food intolerance. Food allergies can cause mild or more severe symptoms such as hives, swelling, difficulty breathing, vomiting and can be life threatening. Food intolerance may cause gas, cramps, diarrhea, headaches, and heartburn, but are not considered life threatening.</p> <p>Foods or beverages may be avoided for religious, cultural, ethnic or personal preference reasons. Avoiding foods/beverages is a problem if it interferes with the client's nutritional status.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Clients should never be advised to eat foods to which they are allergic</li> <li>• Refer to STT Nutrition: <i>Lactose Intolerance</i> and review STT Nutrition handouts: <i>Do You Have Trouble with Milk Foods?</i> and <i>Foods Rich in Calcium</i></li> <li>• Refer to health care provider and/or registered dietitian if she has allergies that lead to a poor diet or if her calcium intake remains low despite education</li> </ul>
<p>84. Are you vegetarian or vegan?</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> Yes: Do you eat:</p> <p><input type="checkbox"/> Milk Products <input type="checkbox"/> Eggs <input type="checkbox"/> Nuts</p> <p><input type="checkbox"/> Beans <input type="checkbox"/> Chicken/Fish</p>	<p>Most vegetarian diets can provide adequate nutrition for pregnant and breastfeeding women. Vegans (people who do not eat any animal products, including dairy or eggs) are at risk for Vitamin B<sub>12</sub> deficiency anemia if they do not supplement their diet.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Notify provider if client is Vegan</li> <li>• Refer to STT Nutrition: <i>Vegetarian Eating</i> and review STT Nutrition handout: <i>When You Are a Vegetarian: What You Need to Know</i> and <i>Vitamin B<sub>12</sub> is Important</i></li> <li>• Refer to registered dietitian and/or medical/obstetrical provider if the client is vegan, has anemia that has not improved within 1 month after the start of treatment, or is unwilling to accommodate pregnancy nutrient requirements into daily intake</li> </ul>

<p>85.</p> <p><u>0-13 weeks:</u></p> <p>a) How do you plan to feed your baby?</p> <p><input type="checkbox"/> Breastfeed</p> <p><input type="checkbox"/> Formula</p> <p><input type="checkbox"/> Breastfeed + Formula</p> <p><input type="checkbox"/> Undecided</p> <p>b) Have you ever breastfed or tried to breastfeed?</p> <p><input type="checkbox"/> If yes, for how long? _____</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> N/A</p> <p>c) Did you breastfeed for as long as you wanted?</p> <p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No, explain: _____</p> <p><input type="checkbox"/> N/A</p>	<p>Breastfeeding is the normal food for infants. Doctors recommend that women feed their babies nothing but breastmilk for the first six months and continue breastfeeding through the first year with additional foods. Your role is to assess breastfeeding desires and barriers, to listen to her choices and concerns, and to offer correct information, support, and referrals. Even if the woman plans to formula feed, offer education that breastfeeding is the normal feeding choice and provide more information as needed.</p> <p><b><u>Interventions:</u></b></p> <p><b><u>0-13 Weeks</u></b></p> <ul style="list-style-type: none"> <li>• If a mother wants to use formula (exclusively or in addition to breastfeeding), explore her reasons and provide information about the risks of formula feeding or combo feeding so that she can make an informed decision</li> <li>• Refer to STT Nutrition: <i>Breastfeeding and Tips for Addressing Breastfeeding Concerns</i> and <i>My Birth Plan</i>. Review and discuss WIC handout (available online): <b><i>How Does Formula Compare to Breastmilk?</i></b></li> <li>• Refer to WIC and/or breastfeeding education classes</li> </ul>
<p><u>14-27 weeks:</u></p> <p>a) What do you think about breastfeeding your new baby?</p> <p><input type="checkbox"/> Not interested</p> <p><input type="checkbox"/> Thinking about it</p> <p><input type="checkbox"/> Wants to</p> <p><input type="checkbox"/> Definitely will</p> <p><input type="checkbox"/> Other: _____</p> <p>b) What questions do you have about feeding your baby?</p> <p>_____</p>	<p><b><u>14-27 Weeks</u></b></p> <ul style="list-style-type: none"> <li>• If the client is not interested or is undecided about breastfeeding, explore her questions and concerns</li> <li>• Refer to STT Nutrition: <i>Breastfeeding and Tips for Addressing Breastfeeding Concerns</i></li> <li>• Review and discuss STT Nutrition handout: <i>My Birth Plan</i> and <i>My Action Plan for Breastfeeding</i></li> <li>• Refer to WIC and/or breastfeeding education classes</li> </ul>
<p><u>28-40 weeks:</u></p> <p>a) How do you plan to feed your baby during the first month?</p> <p><input type="checkbox"/> Breastfeed</p> <p><input type="checkbox"/> Formula</p> <p><input type="checkbox"/> Breastfeed + Formula</p> <p>b) If you are going to breastfeed, who can you go to for breastfeeding help? _____</p> <p>c) What questions do you have about feeding your baby?</p> <p>_____</p>	<p><b><u>28-40 Weeks</u></b></p> <ul style="list-style-type: none"> <li>• If client is planning to breastfeed, refer to STT Nutrition: <i>Breastfeeding, Tips for Addressing Breastfeeding Concerns</i>, and <i>What to Expect While Breastfeeding: Birth to Six Weeks</i>. Review and discuss STT Nutrition handouts: <i>My Action Plan for Breastfeeding</i>, <i>My Birth Plan</i>, and <i>Nutrition and Breastfeeding: Common Questions and Answers</i></li> <li>• If client is planning to formula feed, discuss formula preparation including proper hygiene, measuring, mixing, and storage. Discuss how she should always hold her baby while formula feeding and never prop the bottle</li> <li>• If the client is planning to both breastfeed and formula feed her baby, discuss how supplementing with formula (especially during the first month) prevents the baby from telling her body to make more milk and she may have some problems, including low milk supply, engorgement, or plugged milk ducts. The baby may also have a harder time latching onto the breast after receiving a bottle</li> <li>• Refer to WIC and/or breastfeeding education classes</li> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>

<p><b>86. Dietary intake assessment completed:</b></p> <p><u>0-13 weeks:</u></p> <p><input type="checkbox"/> Perinatal Food Group Recall (PFGR)</p> <p><input type="checkbox"/> 24-hour Perinatal Dietary Recall</p> <p><input type="checkbox"/> Perinatal Food Frequency Questionnaire (PFFQ)</p> <p>Diet adequate as assessed?: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> <b>No</b></p> <p><u>14-27 weeks:</u></p> <p><input type="checkbox"/> Perinatal Food Group Recall (PFGR)</p> <p><input type="checkbox"/> 24-hour Perinatal Dietary Recall</p> <p><input type="checkbox"/> Perinatal Food Frequency Questionnaire (PFFQ)</p> <p>Diet adequate as assessed?: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> <b>No</b></p> <p><u>28-40 weeks:</u></p> <p><input type="checkbox"/> Perinatal Food Group Recall (PFGR)</p> <p><input type="checkbox"/> 24-hour Perinatal Dietary Recall</p> <p><input type="checkbox"/> Perinatal Food Frequency Questionnaire (PFFQ)</p> <p>Diet adequate as assessed?: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> <b>No</b></p>	<p>Interview the patient and complete a dietary intake assessment. If the client is not eating the recommended servings of 2 or more food groups, then her diet is considered inadequate. The client is high risk nutritionally if she is lacking the minimum number of servings from 2 or more food groups after nutrition education has been offered and diet reassessment has been completed at her next visit.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>If the client's diet is inadequate, or if she needs education about meeting the guidelines of a particular food group, review &amp; discuss STT Nutrition handout: <i>MyPlate for Moms</i> and <i>My Nutrition Plan for Moms</i>, highlighting the food groups she's lacking and proper portion sizes</li> <li>Refer to Supplemental Nutrition Assistance Program</li> <li>Refer to WIC</li> <li>Refer to foodbank</li> <li>Refer to a registered dietitian if client is lacking the minimum number of servings from 2 or more food groups after nutrition education has been offered and diet reassessment has been completed, and notify provider</li> </ul>

Refer to the clinic's mandated reporting protocol on pages 42-44</li> <li>• The provider should complete the Danger Assessment form (see Appendix) and document physical injuries on the body map</li> <li>• Call your local law enforcement agency immediately. They can offer her an Emergency Protective Order (EPO), which is an immediate, temporary restraining order so that she can be protected from batterer</li> </ul>

	<ul style="list-style-type: none"> <li>• Within 48 hours of making this phone call, you are required to submit OCJP 920: Suspicious Injury Report Form (see Appendix) and send to your local law enforcement agency</li> <li>• In the report, include any special instructions for safely contacting the client, and mention special needs (such as what language she speaks)</li> <li>• Advocate for the client's rights and needs with police officers.</li> <li>• All health care providers involved are equally responsible for making a report according to the law. When two or more health care providers know of the abuse, only one person is required to submit the report</li> <li>• It is <b>against the law</b> for a supervisor or administrator to prevent staff from reporting abuse</li> <li>• File a copy of the report in the client's medical record. Include written documentation of all communication with police officers and reporting agencies, including name(s) of individuals you speak to, the file number, and other important information</li> <li>• Keep the report confidential. No one can see it without the client's consent.</li> </ul>
<p>101. Are your children, or have your children ever been, victims of physical abuse, sexual abuse, or neglect?</p> <p><input type="checkbox"/> N/A</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> <u>Yes, please explain:</u> _____</p>	<p>According to California State law, health care practitioners must report when they reasonably suspect or have knowledge that a child is being abused and/or neglected. Refer to clinic's mandated reporting protocol on pages 42-44. If you suspect child abuse or neglect:</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Notify provider</li> <li>• Immediately call the Orange County Child Abuse Registry at 714-940-1000 or 1-800-207-4464 (24-hour hotline).</li> <li>• Within 36 hours of making this phone call, you are required to submit form SS 8572: Suspected Child Abuse Report. This report can also be completed online after calling the Orange County Child Abuse Registry</li> <li>• You are required to report all instances of current and past child abuse and neglect as long as the victim is younger than 18 years of age. If the victim is now an adult and the abuse took place when the victim was younger than 18 years of age, you are not required to report the past abuse. However, if the abuser has access to other children and you reasonably suspect that these children may be currently in danger, you are required to report this to the Orange County Child Abuse 24-hour hotline at: 1-800-207-4464.</li> <li>• For additional information, refer to STT Psychosocial: <i>Child Abuse and Neglect</i></li> <li>• Refer to social worker for additional support</li> </ul>

## Group Education Protocol

### Purpose:

- To provide the client with perinatal education and peer support in a group setting

### Procedure:

- ☐ We will not be providing group education classes at this site
- ☐ We will be providing group education classes at this site (choose one):
  - ☐ We will be using the March of Dimes' Becoming a Mom/Comenzando Bien Curriculum
  - ☐ We will be using our own curriculum and will keep a copy of it on file for review by CPSP or Medi-Cal

### Staffing:

The following level of staff will conduct Group Education Classes (mark all that apply):

- ☐ N/A
- ☐ Comprehensive Perinatal Health Worker (CPHW)
- ☐ RN/LVN
- ☐ Registered Dietitian
- ☐ Health Educator
- ☐ Social Worker
- ☐ Other: \_\_\_\_\_

### Documentation:

Two or more CPSP clients comprise a group. Reimbursement is available for face-to-face encounters only. A video may be used during part of a group class, but a CPSP practitioner must be present the entire time. The following documentation is needed for group CPSP services:

- Maintain outlines identifying the class/group content (these should be part of the protocols)
  - Include the date, topic, and name of the instructor on client sign-in sheets
  - Record attendance at the session in each client's record including the elapsed time (in minutes) of the session
  - Retain the sign-in sheet and the group class outline or curriculum. They must be available to auditors if requested.
- Do not put copies of the sign-in sheet in the client's charts because they contain information about other clients.

## Mandated Reporting Protocol

### Purpose:

- To comply with all mandated reporting laws for abuse towards minors under the age of 18, dependent adults/elders, and other victims of violence
- To describe how the clinic will provide comprehensive support for all victims of abuse/neglect

### Procedure & Staffing:

After assessing and interviewing a client, if a CPSP practitioner determines that s/he must file a report according to the mandated reporting law, it is strongly advised to follow this procedure for all mandated reports:

- It is recommended, but not required, that you inform the client of clinician's duty to report. Tell her about the likely response(s) by law enforcement and what will happen.
- In all cases of reported or suspected abuse, telephone the proper authorities **immediately**, or as soon as is practically possible

Which clinic staff person(s) will call law enforcement or the appropriate reporting agency? List person(s) by name and title:

---

Which clinic staff person(s) will file the written report? List this person by name and title:

---

Enter the name and phone number of your local law enforcement agency here:

---

- Provide all the information required by law in reporting abuse
- Include any special instructions for safely contacting the client, and address special needs, i.e. language needs, in the report
- All health care providers involved are equally responsible to see that the report is made according to State requirements. When two or more health care providers have knowledge of a known or suspected instance of violence required to be reported, only one person is required to submit the report. If the designated person does not follow through with making the report then the responsibility falls on the other person involved to file the report. By law, a supervisor or administrator CANNOT prevent a staff member from reporting abuse.
- File a copy of the report in the client's medical record. Include written documentation of all communication with law enforcement and reporting agencies, including the name(s) of individuals you speak to, the file number, and any other critical information.
- Ask client what she would like to happen; advocate for the client's needs with authorities

Which clinic staff member(s) will assist your client in finding resources and referrals? List this person by name and title:

---

Which clinic staff member(s) will attend to the client while waiting for law enforcement to arrive? List this person by name and title:

---

Which clinic staff member(s) will provide details of the alleged abuse to law enforcement if the client declines to do so herself? List this person by name and title:

---

- Keep the report confidential; it cannot be accessed by friends, family or other third parties without the client's consent

#### Required Mandated Reporting Forms (See Appendix)

- Suspected Child Abuse Reporting Form & Instructions (SS8572, Rev. 12/2002)
- Suspected Dependent Adult/Elder Abuse Report Form & Instructions (SOC341, Rev. 3/2015)
- Suspicious Injury Report Form & Instructions (Cal OES 2-920, Rev. 2001)
- Danger Assessment & Body Map

#### Intimate Partner Violence, Domestic Violence, and/or Suspicious Injuries

- If client reports stalking or terrorizing threats (with no evidence or report of physical abuse), encourage her to go to the law enforcement agency in the area where this abuse took place. Her statements will be documented and law enforcement will determine if a crime took place and should be further investigated.
- “Any health practitioner, who provides medical services for a physical condition to a client whom s/he knows, or reasonably suspects suffering from injuries of firearm, assaultive or abusive conduct, is required to generate a report.” (Penal Code 11160-11163.6). Additionally, if a patient reports domestic violence or has marks, bruises, or injuries caused by domestic violence:
  - Complete the “Lethality Assessment” form, which can be found in your protocols or on the Orange County CPSP website. The purpose of this assessment is to determine the level of danger and severity of the situation. The provider should document physical injuries on the body map.
  - Call your local law enforcement agency immediately. Do not allow her to bargain with you to not call the authorities. Law enforcement can offer her an Emergency Protective Order (EPO), which is an immediate, temporary restraining order so that she can be protected from batterer.
  - Within 48 hours of making this phone call, you are required to submit OCJP 920: Suspicious Injury Report Form and send to your local law enforcement agency
  - Contact the Orange County Domestic Violence Hotline for additional guidance: 714-992-1931
  - For additional information, refer to Steps to Take: Psychosocial - *Spousal/Intimate Partner Abuse*
  - Refer to your clinic protocols for a list of local shelters, counseling resources, and hotlines. Call a domestic violence shelter in your area for assistance with legal matters, housing for the client and any other questions.
- Notify provider of any mandated report filed
- Notify Psychosocial Consultant of any mandated report filed, if applicable
- File any reporting forms in the client's chart

### Suspected Child Abuse

- You are required to file a report if you reasonably suspect child abuse, including physical abuse/violence, emotional abuse, sexual abuse, or neglect against anybody under the age of 18 (California Penal Code 11164-11173)
- If you suspect child abuse or neglect:
  - Immediately call the Orange County Child Abuse Registry: 714-940-1000 or 1-800-207-4464 (24-hour hotline)
  - Within 36 hours of making this phone call, you are required to submit form SS 8572: Suspected Child Abuse Report. This report can also be completed online after calling the Orange County Child Abuse Registry at: [https://ssax.ocgov.com/SSA\\_MRA/Login.aspx](https://ssax.ocgov.com/SSA_MRA/Login.aspx)
  - You are required to report all instances of current and past child abuse and neglect as long as the victim is younger than 18 years of age. If the victim is now an adult and the abuse took place when the victim was younger than 18 years of age, you are not required to report the past abuse. However, if the abuser has access to other children and you reasonably suspect that these children may be currently in danger, you are required to report this to the Orange County Child Abuse Registry: 714-940-1000 or 1-800-207-4464 (24-hour hotline)
  - For additional information, refer to Steps to Take: Psychosocial - *Child Abuse and Neglect*
- Notify provider of any mandated report filed
- Notify Psychosocial Consultant of any mandated report filed, if applicable
- File any reporting forms in the client's chart

### Suspected Dependent Adult/Elder Abuse

- You are required to file a report if you suspect physical abuse, abandonment, abduction, isolation, financial abuse, and/or neglect towards any dependent adults (ages 18-64 who are physically or mentally impaired) or any individuals 65 or older
- If you suspect abuse against a dependent adult or elder:
  - Immediately call Orange County Adult Protective Services Elder Abuse Hotline at 1-877- 477-3646
  - Within 48 hours of making this phone call, you are required to complete and submit the SOC 341: Report of Suspected Dependent Adult/Elder Abuse.
  - If needed, for resources call the Orange County Health Referral Line at 1-800-564-8448 or call 211
- Notify provider of any mandated report filed
- Notify Psychosocial Consultant of any mandated report filed, if applicable
- File any reporting forms in the client's chart

## Postpartum Assessment and Individualized Care Plan Protocol

### Purpose:

- To identifying issues affecting the client's health and her baby's health, assess her readiness to take action, and select resources needed to address the issues
- To develop an Individualized Care Plan to address any needs/issues and build on her strengths

### Postpartum Assessment Staffing

The following level of staff will conduct Postpartum Assessments and develop the Individualized Care Plan (mark all that apply):

- ☐ Comprehensive Perinatal Health Worker (CPHW)
- ☐ RN/LVN
- ☐ Registered Dietitian
- ☐ Health Educator
- ☐ Social Worker
- ☐ Other: \_\_\_\_\_

### Procedure:

1. Refer to the Provider Handbook, Delivering CPSP Services to Clients: Postpartum Assessment and Care Plan
2. The Postpartum Assessment and Individualized Care Plan Tool is designed to be completed by any qualified CPSP practitioner, as defined in Title 22, Section 51179.7. The practitioner must be listed on the provider application or staff update form.
3. A CPSP practitioner must complete the assessment face-to-face with the client in a private setting. It is not appropriate for a client to complete this form by herself or to be conducted over the phone.
4. Conduct the assessment in a conversational manner, and use language appropriate to the client's culture and education level when asking about the topics included in the form
5. Familiarize yourself with the assessment questions and the client's medical/delivery record before completing the assessment
6. Complete the postpartum assessment within 60 days of delivery
7. Responses that are shaded are possible risk factors and usually will require additional questioning for clarification. If risks are identified, intervention(s) are needed according to the protocol, such as education, counseling, and/or referral to other CPSP support services practitioners, community based organizations, public resources, or specialists.
8. Complete all questions on the assessment form and use N/A for questions that are not applicable. If the client declines to respond to a question, document "declines to state" on the form and continue with the assessment.
9. At the completion of the assessment, you may summarize the needs and strengths that have been identified and assist the client in prioritizing them. Work with her to set reasonable goals and plans and document them on the Individualized Care Plan Summary.

## Documentation:

### *Client Information:*

- *Client Name:* Client's first name, middle initial, and last name
- *Date of Birth:* Client's month, date, and year of birth
- *Health Plan:* Client's health plan, if applicable
- *ID Number:* If applicable, the ID number assigned to your client by your clinic
- *Provider:* The physician or other provider in charge of the client's overall OB/CPSP care
- *Delivery Facility:* Hospital or location where the client delivered
- *Case Coordinator:* Name and CPSP title of the Case Coordinator

### **Individualized Care Plan & Summary**

The Individualized Care Plan (ICP) is integrated into the assessment form and provides a simple way to document the interventions described in the protocols. The ICP consists of education topics, specific handouts in the Steps to Take Guidelines (STT), and referrals to clinic or community resources. The protocols contain additional background information and details about each risk/problem and appropriate interventions and should always be reviewed before planning an intervention. Based on the client's specific needs, mark the appropriate STT section(s) or handout(s) used to provide education or counseling. Each referral should be documented with the name of the person/agency and the date the referral was made.

Acknowledging the client's past and current strengths empowers her to make positive changes during the postpartum period and in the future. Client strengths should be summarized in the space provided above the Individualized Care Plan Summary. Review STT Guidelines: First Steps - *Essential Elements of Every Client Interaction* for examples of appropriate strengths.

Problems identified on the assessment may be prioritized and summarized in the Individualized Care Plan Summary (ICP). The ICP will be a quick, brief way for the client's CPSP team to view the findings of her assessment. In the first three columns, indicate the question number and a brief summary of the problem and goal. Use the last column to document any updates or outcomes as applicable. Describe the client's progress towards resolving the problem. For example, was the problem resolved? What has changed since the last assessment? This information can include whether she has followed through on the referrals provided, or made changes to her behavior such as her eating or exercise habits, etc.

<p>Date of birth: _____</p> <p>Baby's name: _____</p> <p><input type="checkbox"/> Male    <input type="checkbox"/> Female</p> <p>Additional Information: _____</p> <p>Birth weight (lbs./oz.): _____ Birth length (inches): _____</p> <p>Current weight (lbs./oz.): _____ Current length (inches): _____</p> <p>Type of delivery: <input type="checkbox"/> NSVD   <input type="checkbox"/> VBAC   <input type="checkbox"/> Vacuum   <input type="checkbox"/> Forceps  <input type="checkbox"/> C-Section (<input type="checkbox"/> Primary or <input type="checkbox"/> Repeat)                                (<input type="checkbox"/> LTCS or <input type="checkbox"/> Classical)</p>	<p>Information to complete these fields should be readily available from the delivery record.</p> <p>Additional Information line can be used to note any other information the provider/CPHW determines to be relevant including APGAR, NICU, stillbirth, infant death, placement in foster care, etc.</p>

Infant has a pediatric provider?  <input type="checkbox"/> <b>No</b>    <input type="checkbox"/> Yes, provider: _____</p>	<p>This section provides the opportunity to assess the infant's health and any special needs.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Notify provider of infant health problems</li> <li>• Notify provider of infant exposure to alcohol, drugs, and/or non-prescribed medications</li> <li>• Refer to STT Psychosocial: <i>Birth Defects</i></li> <li>• Encourage the client to ensure her baby receives all checkups and immunizations as recommended by the pediatric provider</li> <li>• Refer to pediatric provider</li> <li>• If the baby has not been seen by a pediatric provider and no appointment is scheduled at the time of the postpartum CPSP support services assessment, schedule an appointment for the baby before the client leaves</li> <li>• Refer managed care members to the appropriate Medi-Cal Managed Care Member Services Department for assistance in locating a pediatric provider and establishing a "medical home" for her baby</li> </ul>
<p>6. Has infant had a newborn check-up?  <input type="checkbox"/> Yes: Any problems?                      <input type="checkbox"/> No    <input type="checkbox"/> <b>Yes</b>, describe: _____  <input type="checkbox"/> <b>No</b>: when scheduled? _____</p>	
<p>7. Infant prenatal exposure to: (check all that apply)  <input type="checkbox"/> <b>Tobacco</b>    <input type="checkbox"/> <b>Alcohol</b>    <input type="checkbox"/> <b>Drugs</b>    <input type="checkbox"/> <b>Non-prescribed Medication</b></p>	

### Clinical-Maternal

<p>8. Have you had your postpartum check-up?  <input type="checkbox"/> Yes, date: _____  <input type="checkbox"/> <b>No</b>, when scheduled? _____</p>	<p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• All health problems should be brought to the attention of the provider</li> <li>• If no postpartum checkup appointment has been scheduled at the time of the CPSP Postpartum Assessment, schedule one for the client before she leaves</li> <li>• Refer to clinic eligibility worker</li> <li>• Refer to Medi-Cal. For individuals not eligible for Medi-Cal, refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>
<p>9. Any health problems since delivery?  <input type="checkbox"/> No    <input type="checkbox"/> <b>Yes</b>: please explain: _____</p>	
<p>10. Do you have health insurance so you can receive your own health care in the future?  <input type="checkbox"/> Yes    <input type="checkbox"/> <b>No</b></p>	

## Nutrition: Anthropometric

11. Total pregnancy weight gain: \_\_\_\_\_
12. Current weight: \_\_\_\_\_
13. Current weight category:  
☐ Underweight   ☐ Normal   ☐ Overweight   ☐ Obese
14. Postpartum Weight Goal: \_\_\_\_\_

Most women lose more than 10 pounds during childbirth, including the weight of the baby, placenta and amniotic fluid.

During the first week after delivery, new mothers will lose additional weight as they shed extra fluids — but the fat stored during pregnancy won't disappear on its own. Through diet and exercise, it is safe to lose 1-2 pounds per week. It might take six months or even longer to return to pre-pregnancy weight. Breastfeeding burns extra calories and can help a woman lose weight faster.

Review client's prenatal assessment for her height and pre-pregnancy weight. Subtract her pre-pregnancy weight from the last recorded weight prior to delivery to calculate her total pregnancy weight gain. Refer to STT Nutrition: *Weight Gain During Pregnancy* to find the normal weight range based on her height.

### Interventions:

- Review & discuss STT Nutrition handout: *My Plate for Moms* and *My Nutrition Plan for Moms* with the client
- Refer to STT Health Education: *Safe Exercise and Lifting*
- Review & discuss STT Health Education handout: *Keep Safe When You Exercise*
- If the client would like to lose weight, assist her in setting a reasonable weight goal based on a loss of no more than 1-2 pounds per week
- Encourage regular physical activity such as walking
- Review how breastfeeding can support weight loss goals
- Refer to exercise & fitness resources
- Refer to registered dietitian
- Refer to health educator

## Nutrition: Biochemical (Postpartum)

15. Blood – date collected: \_\_\_\_\_  
Hgb: \_\_\_\_\_ ( $< 10.5$ )  
Hct: \_\_\_\_\_ ( $< 32$ )
16. OGTT – date: \_\_\_\_\_  
Fasting: \_\_\_\_\_ ( $\geq 126$  mg/dL)  
2 Hr: \_\_\_\_\_ ( $\geq 200$  mg/dL)  
☐ N/A
- Comments: \_\_\_\_\_

Blood tests are used to screen for problems such as anemia, which can lead to a woman feeling more tired than normal.

Postpartum hemoglobin and hematocrit levels should return to first trimester levels within 4 weeks of delivery.

A client who developed diabetes during her pregnancy must have a 2-hour 75-gram oral glucose tolerance test (OGTT) 6 weeks or more after the baby is born and every year after to make certain her diabetes has gone away and has not reoccurred. These clients are at risk for developing Type 2 diabetes later in life and should also receive preconception counseling related to their diabetes prior to becoming pregnant again.

### Diagnostic blood glucose values (with 75gm, 2 hour OGTT):

- Fasting:  $\geq 126$  mg/dL
- 2 hours:  $\geq 200$  mg/dL

Both fasting AND 2 hour values must be within range in order for results to be considered normal.

	<p>You may use the comments line to provide additional information, or note if labs are pending or have been rescheduled.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Notify the provider of any abnormal values</li> <li>• Refer to WIC. Clients who are anemic are considered a priority for WIC, and receive additional nutrition counseling</li> <li>• Refer to STT Nutrition: <i>Iron Deficiency and Other Anemias</i></li> <li>• Review &amp; discuss STT Nutrition handouts: <b><i>Get the Iron You Need, Iron Tips, Iron Tips– Take Two!, My Action Plan for Iron</i></b></li> <li>• Review &amp; discuss STT Gestational Diabetes Mellitus handout: <b><i>Now That Your Baby is Here</i></b></li> <li>• Discuss the importance of obtaining a checkup and preconception counseling prior to becoming pregnant again</li> <li>• Refer to health educator</li> <li>• Refer to registered dietitian</li> </ul>

### Nutrition: Clinical

<p>17. Follow up needed for:</p> <p><input type="checkbox"/> <b>Diabetes:</b>   <input type="checkbox"/> Type 1   <input type="checkbox"/> Type 2   <input type="checkbox"/> GDM</p> <p><input type="checkbox"/> <b>Hypertension</b></p> <p><input type="checkbox"/> <b>Other:</b> _____</p> <p><input type="checkbox"/> N/A</p>	<p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to provider for follow up</li> <li>• Refer to STT Gestational Diabetes: <i>Gestational Diabetes Mellitus (GDM), and If You Had Diabetes While You Were Pregnant: Now That Your Baby is Here</i></li> <li>• Review &amp; discuss STT Health Education handout: <b><i>Did You Have Complications During Pregnancy</i></b></li> <li>• For GDM refer to a diabetes specialist or California Diabetes and Pregnancy Program (CDAPP) Sweet Success Affiliate by calling 1-714-921-9755</li> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> <li>• Discuss the importance of obtaining a checkup and preconception counseling before to becoming pregnant again</li> <li>• Provide Preconception Health Council of California handouts as applicable, available at: <a href="http://everywomancalifornia.org/">http://everywomancalifornia.org/</a></li> </ul>
<p>18. Are you currently taking prenatal vitamins?</p> <p><input type="checkbox"/> Yes   <input checked="" type="checkbox"/> <b>No</b></p>	<p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Encourage client continue to take prenatal vitamins until gone</li> <li>• If client is breastfeeding, encourage her to take vitamins with 400mcg folic acid daily</li> </ul>

## Nutrition: Dietary

<p>19. Dietary intake assessment completed:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Perinatal Food Group Recall (PFGR)</li> <li><input type="checkbox"/> Perinatal Food Frequency Questionnaire (PFFQ)</li> <li><input type="checkbox"/> 24-hour Perinatal Dietary Recall</li> </ul> <p>Diet adequate as assessed?: <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	<p>Interview the patient and complete a dietary intake assessment. If the client is not eating the recommended servings of 2 or more food groups, then her diet is considered inadequate. The client is high risk nutritionally if she is lacking the minimum number of servings from 2 or more food groups after nutrition education has been offered and diet reassessment has been completed at her next visit.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• If the client's diet is inadequate, or if she needs education about meeting the guidelines of a particular food group, review &amp; discuss STT Nutrition handout: <i>MyPlate for Moms</i> and <i>My Nutrition Plan for Moms</i>, highlighting the food groups she's lacking and proper portion sizes</li> <li>• Refer to Supplemental Nutrition Assistance Program</li> <li>• Refer to WIC</li> <li>• Refer to Foodbank</li> <li>• Refer to a registered dietitian if client is lacking the minimum number of servings from 2 or more food groups after nutrition education has been offered and diet reassessment has been completed, and notify provider</li> </ul>
---	---

## Nutrition: Infant

<p>20. What are you feeding your baby?</p> <p><input type="checkbox"/> Breastmilk only <input type="checkbox"/> Formula only <input checked="" type="checkbox"/> Breastmilk + formula</p> <p>21. Do you have questions about mixing or feeding formula?</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A</p> <p>22. # Wet diapers/day: _____</p> <p>23. How many times in a 24 hour period do you feed your baby? ____</p>	<p>About half of mothers who started breastfeeding will still be nursing at 6 weeks postpartum. This is the time to help them picture breastfeeding working for them over the long run.</p> <p>Breastfeeding is the best way to feed a baby in most circumstances. Breastmilk supply is determined by how often the baby breastfeeds. A woman who tries to breast-and-formula feed her baby may have trouble maintaining her breastmilk supply.</p> <p>During the first week, the baby should have a minimum number of wet diapers equal to its age in days. At 6-8 weeks the number of wet diapers may decrease, but the baby should still have at least 5 wet diapers per day.</p> <p>It is normal for a baby to feed 12 to 20 times in a 24 hour period during the first week. As breastfeeding infants grow, they will breastfeed fewer times per day and night.</p> <p>It is normal for babies to have short, frequent feedings. It is also normal for them to feed on an irregular schedule. Babies should not be expected to go longer than about 3 hours in between feedings until they reach about 10 lbs (or around 2 months of age). It is not normal for a baby less than 4 months old to sleep more than 5 hours at a time between feedings.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Discuss benefits of exclusive breastfeeding for 6 months</li> <li>• Discuss risks of supplementing breastmilk with formula</li> <li>• Refer to STT Nutrition: <i>Breastfeeding and Tips for Addressing Breastfeeding Concerns</i></li> <li>• Refer to WIC</li> <li>• Refer to breastfeeding education classes</li> <li>• Refer to breastfeeding/lactation consultant</li> <li>• Refer to breastfeeding support group</li> <li>• Refer to breastfeeding help line</li> <li>• Refer to health educator</li> </ul>
---	---

<p>If Breastfeeding: <input type="checkbox"/> N/A</p> <p>24. Is breastfeeding comfortable for you?  <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No: _____</p> <p>25. Are you planning on returning to work or school within the next 6 months?  <input type="checkbox"/> No <input checked="" type="checkbox"/> Yes: _____</p> <p>26. Do you have any of the following concerns?  <input type="checkbox"/> I can't tell if my baby is getting enough milk  <input type="checkbox"/> My baby is not latching on well  <input type="checkbox"/> I have cracked and/or sore nipples  <input type="checkbox"/> Other: _____  <input type="checkbox"/> NA</p>	<ul style="list-style-type: none"> <li>• Refer to provider</li> </ul> <p>Breastfeeding should be comfortable, not painful. Cracked, sore nipples are most commonly a result of improper positioning of the baby's mouth on the breast. If a woman has pain during or between feedings or if she has any bleeding or visible cracks of the nipples, refer to a lactation expert.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Refer to STT Nutrition: <i>Breastfeeding, Tips for Addressing Breastfeeding Concerns</i>, and <i>What to Expect While Breastfeeding: Birth to Six Weeks</i></li> <li>• Review &amp; Discuss STT Nutrition handout: <i>Breastfeeding Checklist for Baby and Me, My Breastfeeding Resource</i> and <i>Nutrition and Breastfeeding: Common Questions and Answers</i></li> <li>• Utilize education materials which specifically address positioning if the client complains of sore or cracked nipples</li> <li>• Refer to breastfeeding education classes</li> <li>• Refer to breastfeeding/lactation consultant</li> <li>• Refer to breastfeeding support group</li> <li>• Refer to breastfeeding help line</li> <li>• Refer to WIC or provider for breast pumps and related information</li> <li>• Provide information about Lactation Accommodation Laws</li> <li>• Refer to provider</li> <li>• Refer to childcare resources</li> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>
<p>If formula is used: <input type="checkbox"/> N/A</p> <p>27. Type of formula: _____</p> <p>With Iron? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>_____ oz. _____ times/day</p>	<p>Feeding instructions for each baby will vary based on their individual needs. The client should check with their pediatrician for specific feeding advice.</p> <p>In general, after the first few days, a formula-fed newborn will take about 2-3oz of formula per feeding. They will typically eat every 3-4 hours during the first few weeks. During the first month, the baby should go no longer than 4-5 hours between feedings. By the end of the first month, the baby will be taking up to 4oz per feeding, and feeding about every 4 hours.</p> <p>The American Academy of Pediatrics currently recommends that iron-fortified formula be used for all infants who are not breastfed, or who are only partially breastfed, from birth to one year of age. Iron-fortified formulas reduce the rate of iron-deficiency anemia in infancy, and promote the baby's growth and development.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Provide the client with information regarding safe and appropriate bottle feeding techniques based on the client's questions and responses</li> <li>• Review recommendations for iron-fortified formula</li> </ul>

## Psychosocial

### 28. Patient Health Questionnaire 9 (PHQ-9) or Edinburgh Postnatal Depression Scale (EPDS)

#### Screening Score:

- ☐ ≤4: No apparent depression
- ☐ 5-9: Increased Risk
- ☐ ≥ 10: Probable Depression

#### Regardless of Score:

- ☐ Positive Result: PHQ9 Question #9
- ☐ Positive Result: EPDS Question #10

Untreated depression can lead to bigger problems for the mother and baby if not identified and treated early.

#### Interventions:

##### **For screening scores of 5-9 (Increased Risk)**

- Refer to STT Psychosocial: *Emotional or Mental Health Concerns and Depression*
- Review and discuss STT Psychosocial handout: *How Bad Are Your Blues?*
- Review “Perinatal Mood and Anxiety Disorders: Maternal Screening and Care Pathway” by Orange County Perinatal Mood and Anxiety Disorder-Health Care Provider Resource
- Advise client to inform the provider if symptoms worsen
- Provide referral to mental health clinic or social worker which client can use for extra support or if symptoms worsen
- Refer to the Orange County Health Care Agency Behavioral Health Services Information and Referral Line at 1-855-OC-Links (1-855-625-4657) for additional guidance and referrals
- Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211

##### **For screening scores of 10 or higher (Probable Depression)**

- Notify the provider
- Refer to STT Psychosocial: *Emotional or Mental Health Concerns and Depression*
- Review and discuss STT Psychosocial handout: *How Bad Are Your Blues?*
- Review “Perinatal Mood and Anxiety Disorders: Maternal Screening and Care Pathway” by Orange County Perinatal Mood and Anxiety Disorder-Health Care Provider Resource
- Refer to home visitation program for additional support
- Refer to your mental health clinic or social worker for further evaluation, treatment, and support
- Refer to the Orange County Health Care Agency Behavioral Health Services Information and Referral Line at 1-855-OC-Links (1-855-625-4657) for additional guidance and referrals
- For the Orange County Crisis Assessment Team / Orange County Psychiatric Mobile Response Services call: 1-866-830-6011
- Refer to mental health urgent care clinic
- Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211
- If the client is a danger to herself or others, immediately call 911 or your local law enforcement agency

<p>29. Are you getting the support you need from your family/partner?  <input type="checkbox"/> Yes   <input checked="" type="checkbox"/> <b>No</b>, explain: _____</p> <p>30. Are you having any difficulty coping with the demands of your baby?  <input type="checkbox"/> No  <input checked="" type="checkbox"/> <b>Yes</b>, explain: _____</p>	<p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to STT Psychosocial: <i>Parenting Stress and Emotional or Mental Health Concerns</i></li> <li>• Refer to National Parent Helpline at 1-855-4-A-PARENT or 1-855-427-2736</li> <li>• Refer to mental health clinic</li> <li>• Refer to family counseling/support program</li> <li>• Refer to home visitation program</li> <li>• Refer to the Orange County Domestic Violence Hotline at 714-992-1931 or 1-800-978-3600 or the National Domestic Violence Hotline at 1-800-799-7233</li> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> <li>• Refer to domestic violence shelter</li> <li>• Refer to social worker for additional evaluation/support resources</li> </ul>
<p>31. Have you had any changes in your mood since your baby was born?  <input type="checkbox"/> No   <input checked="" type="checkbox"/> <b>Yes</b>, please explain: _____</p>	<p>Postpartum depression affects between 10-22% of mothers. It usually develops within 3-14 days postpartum, but can develop anytime within the 1<sup>st</sup> year. Postpartum depression is different from “baby blues,” which only lasts about 2-3 weeks. If the client is still experiencing changes in mood at 5-6 weeks postpartum, she could have postpartum depression or another postpartum mood or anxiety disorder. The good news is postpartum depression and other disorders are treatable, but early assessment and treatment is key.</p>
<p>32. a) How many hours of sleep are you getting? _____</p> <p>b) Are you able to sleep when your baby is sleeping?  <input type="checkbox"/> Yes   <input checked="" type="checkbox"/> <b>No</b>, please explain: _____</p> <p>c) Are you able to sleep if someone else is taking care of the baby?  <input type="checkbox"/> Yes   <input checked="" type="checkbox"/> <b>No</b>, please explain: _____</p>	<p>Sleep is also important for mental health, but often it is difficult a new mom to get enough sleep. A major red flag for depression is the mother not being able to sleep, even when her baby is sleeping. It is important to ask the client if there are any problems with sleeping, since this could be a sign of postpartum depression, or other mental health problems.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to STT Psychosocial: <i>Emotional or Mental Health Concerns and Depression</i></li> <li>• Refer to Postpartum Support International at 1-800-944-4773</li> <li>• Refer to mental health clinic for evaluation</li> <li>• If the client has a past history of serious depression, mental illness, or attempted suicides, the provider should be notified and an appropriate referral made to the social worker or mental health clinic for further assessment</li> <li>• Refer to Orange County Postpartum Wellness Program (OCPW) at 714 480-5160</li> <li>• Refer to the Orange County Health Care Agency Behavioral Health Services Information and Referral Line at 1-855-OC-Links (1-855-625-4657) for additional guidance and referrals</li> <li>• For Orange County Crisis Assessment Team / Orange County Psychiatric Mobile Response Services at: 1-866-830-6011</li> <li>• Refer to a mental health clinic or social worker for further evaluation, treatment, and support</li> <li>• Refer to local mental health urgent care clinic</li> <li>• If the client is a danger to herself or others, immediately call 911 or your local law enforcement agency</li> </ul>

	<ul style="list-style-type: none"> <li>• Refer to call the Orange County Health Referral Line at 1-800-564-8448 or call 211</li> <li>• Refer to social worker</li> <li>• Refer to mental health urgent care center</li> <li>• If the client is a danger to herself or others, immediately call 911 or your local law enforcement agency</li> <li>• If the client is currently receiving mental health services, work with the other agencies as much as possible (with the client's written consent) to provide and coordinate services</li> </ul>
<p>33. Within the last year, have you been hit, slapped, kicked, choked, or otherwise physically hurt by someone?</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> <b>Yes</b>, by whom? _____ How many times? _____</p> <p>34. Within the last year, has anyone forced you to have sexual activities?</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> <b>Yes</b>, by whom? _____ How many times? _____</p>	<p>Inform the client that because of your concern for her health and increased risk for violence and abuse during/after a pregnancy, you ask everyone questions about violence in the home.</p> <p>It is recommend, but not required, that you also tell the client that you must report abuse (if) she has current injuries from abuse, or (2) she is under the age of 18.</p> <p>If the client reports no abuse, tell her that if the situations changes, she should discuss it with her health care provider or CPHW.</p> <p>Many women will not admit abuse initially, but may discuss it later when she feels safer and more trusting of her health care providers. Do not pressure the woman to respond to the abuse questions, even when there is evidence that she is not being honest.</p> <p><b><u>Interventions if she reports abuse (with or without injuries):</u></b></p> <ul style="list-style-type: none"> <li>• Inform the client of your mandated reporting requirement if (1) she has current injuries from abuse, or (2) she is under the age of 18</li> <li>• Notify the provider</li> <li>• Refer to STT Psychosocial: <i>Spousal/Intimate Partner Abuse</i></li> <li>• Review &amp; discuss STT Psychosocial handouts: <i>Cycle of Violence</i> and <i>Safety When Preparing to Leave</i></li> <li>• If the client is under age 18, refer to STT Psychosocial: <i>Child Abuse and Neglect</i> and follow the mandated reporting procedure on pages 42-44.</li> <li>• Refer to the Orange County Domestic Violence Hotline: 714-992-1931</li> <li>• Refer to National Domestic Violence Hotline at 1-800-799-7233.</li> <li>• Contact for additional guidance and referrals</li> <li>• Refer to a domestic violence shelter in your area for assistance with legal matters, housing for the client, and any other questions</li> <li>• If client reports stalking or threats (with no evidence or report of physical abuse), encourage her to go to the law enforcement agency in the area where the stalking took place. Her statements will be documented and law enforcement will determine if a crime took place and should be further investigated</li> <li>• Refer to health educator</li> <li>• Refer to social worker</li> </ul>

	<p><b><u>Interventions if she reports abuse AND has injuries:</u></b></p> <ul style="list-style-type: none"> <li>• Inform the client of your mandated reporting requirement if (1) she has current injuries from abuse, or (2) she is under the age of 18</li> <li>• STOP the assessment and consult with the provider for help with this section</li> <li>• Refer to the clinic's mandated reporting protocol on pages 42-44</li> <li>• The provider should complete the "Danger Assessment" form (see Appendix) and document physical injuries on the body map</li> <li>• Call your local law enforcement agency immediately. They can offer her an Emergency Protective Order (EPO), which is an immediate, temporary restraining order so that she can be protected from the batterer</li> <li>• Within 48 hours of making this phone call, you are required to submit OCJP 920: Suspicious Injury Report Form (see Appendix) and send it to your local law enforcement agency</li> <li>• In the report, include any special instructions for safely contacting the client, and mention special needs (such as what language she speaks)</li> <li>• Advocate for the client's rights and needs with the police officers</li> <li>• All healthcare providers involved are equally responsible for making a report according to the law. When two or more health care providers know of the abuse, only one person is required to submit the report</li> <li>• It is <b>against the law</b> for a supervisor or administrator to prevent staff from reporting abuse</li> <li>• File a copy of the report in the client's medical record. Include written documentation of all communications with police officers and reporting agencies, including name(s) of individuals you speak to, the file number, and other important information</li> <li>• Keep the report confidential. No one can see it without the client's consent</li> </ul>
<p>35. Do you feel like you have everything you need for your baby?</p> <p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No: (please specify)</p> <p><input type="checkbox"/> <u>clothing</u></p> <p><input type="checkbox"/> <u>diapers</u></p> <p><input type="checkbox"/> <u>a safe place to sleep</u></p> <p><input type="checkbox"/> <u>childcare</u></p> <p><input type="checkbox"/> <u>other:</u> _____</p>	<p>The status of the client's resources may have changed since the birth of her baby. This question allows the assessor to determine the client's need for and knowledge of available resources for housing, baby supplies, etc.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to STT First Steps: <i>Making Successful Referrals and Women, Infants and Children (WIC) Supplemental Nutrition Program</i></li> <li>• Refer to STT Psychosocial: <i>Financial Concerns</i></li> <li>• Provide referral to Orange County Department of Social Services (DPSS) for financial resource programs</li> <li>• Refer clients 18 and under to teenage parenting program(s)</li> <li>• Provide childcare resources</li> <li>• Provide housing resources</li> <li>• Provide infant care supply resources</li> <li>• Refer to employment resource center</li> <li>• Refer to social worker for assistance identifying additional resources</li> </ul>

## Health Education

<p>36. Do you have any sore/bleeding gums, sensitive/loose teeth, bad taste or smell in mouth, or other oral health problems?</p> <p><input type="checkbox"/> No <input checked="" type="checkbox"/> <b>Yes:</b> _____</p>	<p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> <li>• Refer to dentist (FQHC dental clinic or dentist that takes Medi-Cal)</li> <li>• Review &amp; discuss STT Health Education handout: <b><i>Keep Your Teeth and Mouth Healthy! Protect Your Baby Too</i></b></li> </ul>
<p>37. Have you seen a dentist in the last 6 months?</p> <p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> <b>No</b></p>	
<p>38. Do you have any postpartum discomforts?</p> <p><input type="checkbox"/> No <input checked="" type="checkbox"/> <b>Yes:</b> _____</p>	<p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Refer to provider for any discomforts</li> <li>• Review &amp; discuss STT Health Education handout: <b><i>Signs &amp; Symptoms of Heart Disease During Pregnancy &amp; Postpartum</i></b></li> <li>• Refer to text messaging service or social media application</li> <li>• Refer to registered dietitian as appropriate</li> <li>• Refer to health educator as appropriate</li> </ul>
<p>39. Have you used drugs or medications other than as prescribed in the past year?</p> <p><input type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> <b>Yes, explain:</b> _____</p>	<p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Notify provider</li> <li>• Refer for information on medications, herbal products, infections, vaccines, maternal medical condition, illicit substances, and other common exposures such as paint, pesticides, hot tubs, etc.</li> <li>• Encourage client to delay another pregnancy until drug-free</li> <li>• Refer to substance abuse treatment</li> <li>• Refer to Medi-Cal drug treatment facility</li> <li>• Refer to Narcotics Anonymous</li> <li>• Review mandated reporting protocols on pages 42-44 if you think that client's drug use may result in abuse or neglect to her child/children. These protocols will include contacting the Orange County Child Protection Hotline and completing a Suspected Child Abuse Report</li> <li>• Refer to STT Psychosocial: <b><i>Child Abuse and Neglect</i></b></li> </ul>
<p>40. Do you drink alcohol?</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> <b>Yes:</b> <input type="checkbox"/> &lt; 3 drinks/day, 7 drinks/week in past 3 months</p> <p><input checked="" type="checkbox"/> <b>&gt; 3 drinks/day, 7 drinks/week in past 3 months</b></p>	<p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Encourage to delay another pregnancy until alcohol-free</li> <li>• Encourage to wait at least 3 hours after having alcohol before breastfeeding</li> <li>• Refer to provider</li> <li>• Refer to social worker</li> <li>• Refer to Alcoholics Anonymous</li> <li>• Refer to health educator</li> <li>• Refer to the Orange County Health Care Agency Behavioral Health Services Information and Referral Line at 1-855-OC-Links (1-855-625-4657)</li> <li>• Refer to mental health urgent care clinic</li> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>
<p>41. Do you smoke any tobacco products (including hookah or vaping), or are you exposed to secondhand smoke?</p> <p><input type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> <b>Yes:</b> _____</p>	<p>Infants who are exposed to secondhand smoke are at a higher risk of sudden infant death syndrome (SIDS), ear infections, coughs, colds, and other breathing problems.</p> <p><b>Interventions:</b></p> <ul style="list-style-type: none"> <li>• Encourage not to allow smoke around the baby</li> <li>• Refer to STT Health Education: <b><i>Tobacco Use and/or Secondhand Smoke</i></b></li> <li>• Discuss quitting for client's own health and for the health of her baby</li> </ul>

	<ul style="list-style-type: none"> <li>• Review and discuss STT Health Education handout: <b><i>You Can Quit Smoking</i></b></li> <li>• Give referral to local smoking cessation program; 1-866-NEW-LUNG (1-866-639-5864)</li> <li>• Refer to California Smokers' Helpline for free counseling or information on secondhand smoke at: 1-800-NO-BUTTS or 1-800-45-NO-FUME (Spanish)</li> <li>• Refer to Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>

### Health Education: Family Planning

<p>42. Would you like to become pregnant in the next 18 months?</p> <p><input type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> <b>Yes:</b> _____</p>	<p>It is usually recommended to wait at least 18 months before getting pregnant again. Spacing pregnancies 18 months allows the body to recover and be ready for the next pregnancy. Birth spacing is important because it helps both the mom and baby to be as healthy as possible. After delivery, the mother will build up her supply of nutrients and heal from any infection or inflammation. Too little time in between pregnancies can increase the risk of the baby being born premature and/or being born with low birth weight.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Discuss the importance of spacing 18 months between pregnancies</li> <li>• Encourage to take folic acid 400 mcg daily</li> <li>• Encourage to avoid chemical exposure before conceiving again</li> <li>• Encourage preconception counseling before next pregnancy</li> <li>• Refer to STT Health Education: <i>Family Planning Choices</i></li> </ul>
<p>43. Any plans to use birth control?</p> <p><input type="checkbox"/> Yes: _____</p> <p><input checked="" type="checkbox"/> <b>No:</b> _____</p>	<p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Discuss birth control methods</li> <li>• Refer to STT Health Education: <i>Family Planning Choices</i></li> <li>• Refer to family planning provider</li> <li>• Refer to provider</li> <li>• Refer to call Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>
<p>44. Has your partner ever pressured you to become pregnant, interfered with your birth control, or refused to wear a condom?</p> <p><input type="checkbox"/> Never</p> <p><input checked="" type="checkbox"/> <b>Sometimes</b></p> <p><input checked="" type="checkbox"/> <b>Often</b></p>	<p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to OB or family planning provider</li> <li>• Encourage client to talk to an OB or family planning provider about birth control methods that are less detectable (such as a shot, implant, or an IUD with the strings trimmed)</li> <li>• Refer to STT Health Education: <i>Family Planning Choices</i></li> </ul>

### Health Education: Infant Safety & Care

<p>45. Are you or your partner around any dangerous chemicals in your household, environment, or workplace?</p> <p><input type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> <b>Yes:</b> _____</p>	<p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to STT Health Education: <i>Workplace Safety</i></li> <li>• Review &amp; discuss STT Health Education handout: <b><i>Keep Safe at Work</i></b></li> <li>• Encourage to avoid lead and mercury</li> <li>• Encourage to avoid BPA and use BPA free bottles and formula</li> <li>• Refer to Orange County Department of Public Health-Environmental Health for soil/water testing at 714-433-6000</li> <li>• Refer to Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>
---	---

<p>46. Do you have questions about your baby's health or safety?</p> <p><input type="checkbox"/> No</p> <p><input type="checkbox"/> Yes: _____</p>	<ul style="list-style-type: none"> <li>• Refer to health educator</li> </ul> <p>Maintaining the health of babies involves knowing when health problems are serious, when to get medical help, and keeping babies protected from serious disease.</p> <p>Safety issues for babies focus on car seat travel and safety at home.</p> <p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to STT Health Education: <i>Infant Safety and Health and Oral Health During Infancy</i></li> <li>• Review &amp; discuss STT Health Education handouts: <b><i>Keeping Your Baby Safe and Healthy, Protect Your Baby From Tooth Decay; Keep Your Teeth and Mouth Healthy! Protect Your Baby, Too; When Your Newborn Baby is Ill; and Your Baby Needs to be Immunized</i></b></li> <li>• Reinforce the importance of well child checkups and immunizations as a means of preventing illness and disability</li> <li>• Discuss safe infant sleeping positions, including "Safe Sleep" materials</li> <li>• Review &amp; discuss car seat safety information in <i>STT Health Education: Infant Safety and Health</i></li> <li>• Refer to 1-800-745-SAFE (1-800-745-7233) for additional car seat safety information</li> <li>• Refer to Orange County Health Referral Line at 1-800-564-8448 or call 211</li> <li>• Refer to provider as needed</li> <li>• Refer to health educator as needed</li> </ul>
<p>47. Would you like more information about the following topics?</p> <p><input type="checkbox"/> Infant bathing</p> <p><input type="checkbox"/> Infant diapering</p> <p><input type="checkbox"/> Safe Sleep</p> <p><input type="checkbox"/> SIDS</p> <p><input type="checkbox"/> Car seat safety</p> <p><input type="checkbox"/> Childhood Lead Poisoning Prevention</p> <p><input type="checkbox"/> Other: _____</p> <p><input type="checkbox"/> N/A</p>	<p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Review and discuss sleeping positions, including "Safe Sleep" materials</li> <li>• Refer to STT Health Education: <i>Infant Safety and Health</i></li> <li>• Refer to 1-800-745-SAFE for additional car seat safety information</li> <li>• Refer to the Orange County Childhood Lead Poisoning Program at: 714-567-6220</li> <li>• Refer to provider as needed</li> <li>• Refer to health educator as needed</li> <li>• Refer to Orange County Health Referral Line at 1-800-564-8448 or call 211</li> </ul>

## Other

<p>48. Any other outstanding issues from the Prenatal Assessment/Reassessment?</p> <p><input type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> Yes: _____</p>	<p><b><u>Interventions:</u></b></p> <ul style="list-style-type: none"> <li>• Refer to services and provide resources as needed based on the issue that needs follow-up</li> <li>• Provide education as needed based on the issue that needs follow-up</li> </ul>
