## SMALL QUANTITY MEDICAL WASTE GENERATOR REGISTRATION

All generators of medical waste within the County of Orange must register with Environmental Health. Facilities that generate less than 200 pounds of medical waste per month are small quantity generators. *If your facility generates 200 pounds or more of medical waste per month you must register as a Large Quantity Generator (LQG).* Please contact us for forms and requirements for LQGs.

If your facility does not generate **any** regulated medical waste please complete this form and sign the "Certification of Non-Medical Waste Generator" statement located on the back of this form.

Return this form by mail, FAX, or email as listed above. If you have any questions regarding registration or medical waste handling requirements, please contact our office at (714) 433-6000.

Type of Facility (check all that apply)

Medical \_\_\_ Dental \_\_\_ Laboratory \_\_\_ Veterinary \_\_\_ Pharmacy \_\_\_ Other \_\_\_\_\_

Treatment: Do you treat medical waste or hazardous materials onsite for disposal purposes? Yes \_\_\_ No \_\_\_

*Examples: Autoclave or solidify sharps for trash disposal. Neutralize Formalin or Glutaraldehyde for sewer disposal.*

Type of medical waste generated (check all that apply)

- Sharps** - Needles, syringes, slides, blades, glass pipettes and broken blood vials used in the diagnosis, treatment, or immunization of humans or animals; research and/or the production or testing of biologicals.
- Pharmaceuticals or Bulk Chemotherapy** – Unused, expired/outdated, damaged, contaminated, or otherwise unwanted materials that cannot be returned for credit.
- Fluid Blood or Fluid Blood Products** - This includes dressings, containers or equipment containing fluid blood, fluid blood products, or blood from animals known to be infected *with diseases which are highly communicable to humans*.
- Laboratory Waste** - Human or animal specimen cultures; cultures and stocks of infectious agents, and/or wastes from the production of bacteria, viruses or the use of spores, discarded live and attenuated vaccines and culture dishes and devices used to transfer, inoculate and mix cultures.
- Surgery Specimens or Tissues Fixed in Formalin or Other Fixatives**
- Isolation waste** - Waste contaminated with excretion, exudate, or secretions from humans or animals that are isolated due to highly communicable diseases (Center for Disease Control, Biosafety Level 4).
- Trace Contaminated Chemotherapy Waste** - Empty containers, sharps, tubing, etc. contaminated with trace amounts of chemotherapeutic agents.
- Animal Specimens** - Animal parts, tissues, fluids, or carcasses suspected of being contaminated with infectious agents known to be contagious to humans.
- Surgical Specimens** - Human surgery specimens or tissues removed at surgery or autopsy suspected of being contaminated with infectious agents. This also includes recognizable human anatomical parts.
- Other** (Please specify): \_\_\_\_\_

Is your medical waste consolidated with others in a Common Storage Area?     YES     NO

*Example: Property management collects tenant medical waste and consolidates it for pick-up / disposal*

Please list the name(s) of the companies used to dispose of your medical waste:

\_\_\_\_\_

Please indicate if any of the following applies to your business practice:

- Radiology (X-rays):     Chemical process     Digital process
- Chemical Sterilants used to disinfect medical/dental devices such as EtO, Glutaraldehyde, or OPA

**CERTIFICATION**

*Under penalty of law I declare that to the best of my knowledge the information provided herein is true and accurate.*
