**Subject: Emergency Medical Services Analytics Coordinator Announcement**

Orange County Emergency Medical Services (OCEMS) is pleased to announce Anjan Purohit as the new EMS Analytics Coordinator. Anjan will be primarily responsible for coordinating, planning, and implementing reports and dashboards with a focus on EMS operational and clinical outcomes measures. He will work with various stakeholder groups including EMS providers, Base Hospitals, and Specialty Care Receiving Centers (Cardiac, Stroke, Trauma) to develop meaningful clinical quality metrics to aid with the advancement of local prehospital patient care. He will also be involved with support and management of the Orange County Medical Emergency Data System (OC-MEDS).

Anjan earned his Bachelor's degree in operations management in 2012 and a Master of Business Administration in 2016. He is a licensed paramedic with current 9-1-1 experience with an out-of-county fire department. In his former role, he served as a Management Analyst for the Orange County Fire Authority where he managed EMS reporting, data analytics, and their Patient Care Reporting (ePCR) System.

We are looking forward to utilizing Anjan's experience and expertise to help improve EMS care for the people of Orange County.
